ONE HUNDRED AND TWENTY-FIVE THOUSAND DOLLARS MORE WANTED FOR SHIP OF NEGRO RACE

Fellow Men of the Negro Race, Greeting:

Today we make a universal appeal to each and every Negro of red blood. There come times in the history of a people, nation or movement when every one must unite to do for the common good; such a time has now come in the life of the Universal Negro Improvement Association and the Negro race.

African Colonization Plan

To carry out successfully our African colonization plan we must have ships. For that reason the Universal Negro Improvement Association in March of the present year organized the Black Cross Navigation and Trading Company as an auxiliary corporation to secure a ship to be ready by September to convey our first group of colonists to Liberia. One hundred and twenty-five thousand dollars more must be raised immediately if we are to secure the ship that we are now negotiating for. If this money is not raised in another two weeks we shall lose the opportunity of securing one of the best bargains for the Association and the race. If we act quickly we will be able to have by September a boat of 11,000 tons, with accommodations for over 900 passengers. Such a ship would be an ideal acquisition for the Association to carry out its emigration program.

Must Have More Money for Ship

We want and must have \$125,000 more to meet the payment; if this is not available within the next two weeks we shall surely lose the chance of securing the boat.

MUST BE RAISED IN TWO WEEKS

EVERY NEGRO MEMBER SHOULD RALLY TO THE CALL

LOAN WHAT YOU CAN AFFORD TO HELP OUT

DO WHAT YOU CAN NOW

will not help us. Do what you can now. The man or woman who can help and refuses to do so now, waiting to see, is no real friend of the Association or the race.

Raise Amount in Two Weeks

What's the idea of waiting to see when your immediate help would assist materially in putting the thing over? Let us all put our shoulders to the wheel and in two weeks loan the balance of \$125,000 to secure our first ship.

If we can raise this money in two weeks, then we shall have our ship for September. We can do it if we try. All those who have made part payments on your loan please send or bring in the balance now. Those who have not yet made a loan, please send in and do so today. Loan the company whatever you can afford, \$1,000, \$500, \$300, \$200, \$100 or \$50, but do it now and today.

Wheresoever you are, as you receive this message, write directly to the Black Cross Navigation and Trading Company, 56 West 135th Street, New York.

Prepare for the Convention

Everybody is also asked to prepare for the big convention that will open next month. All Divisions and Chapters should send as many delegates as possible. Only financial Divisions and Chapters will be allowed to speak and vote on

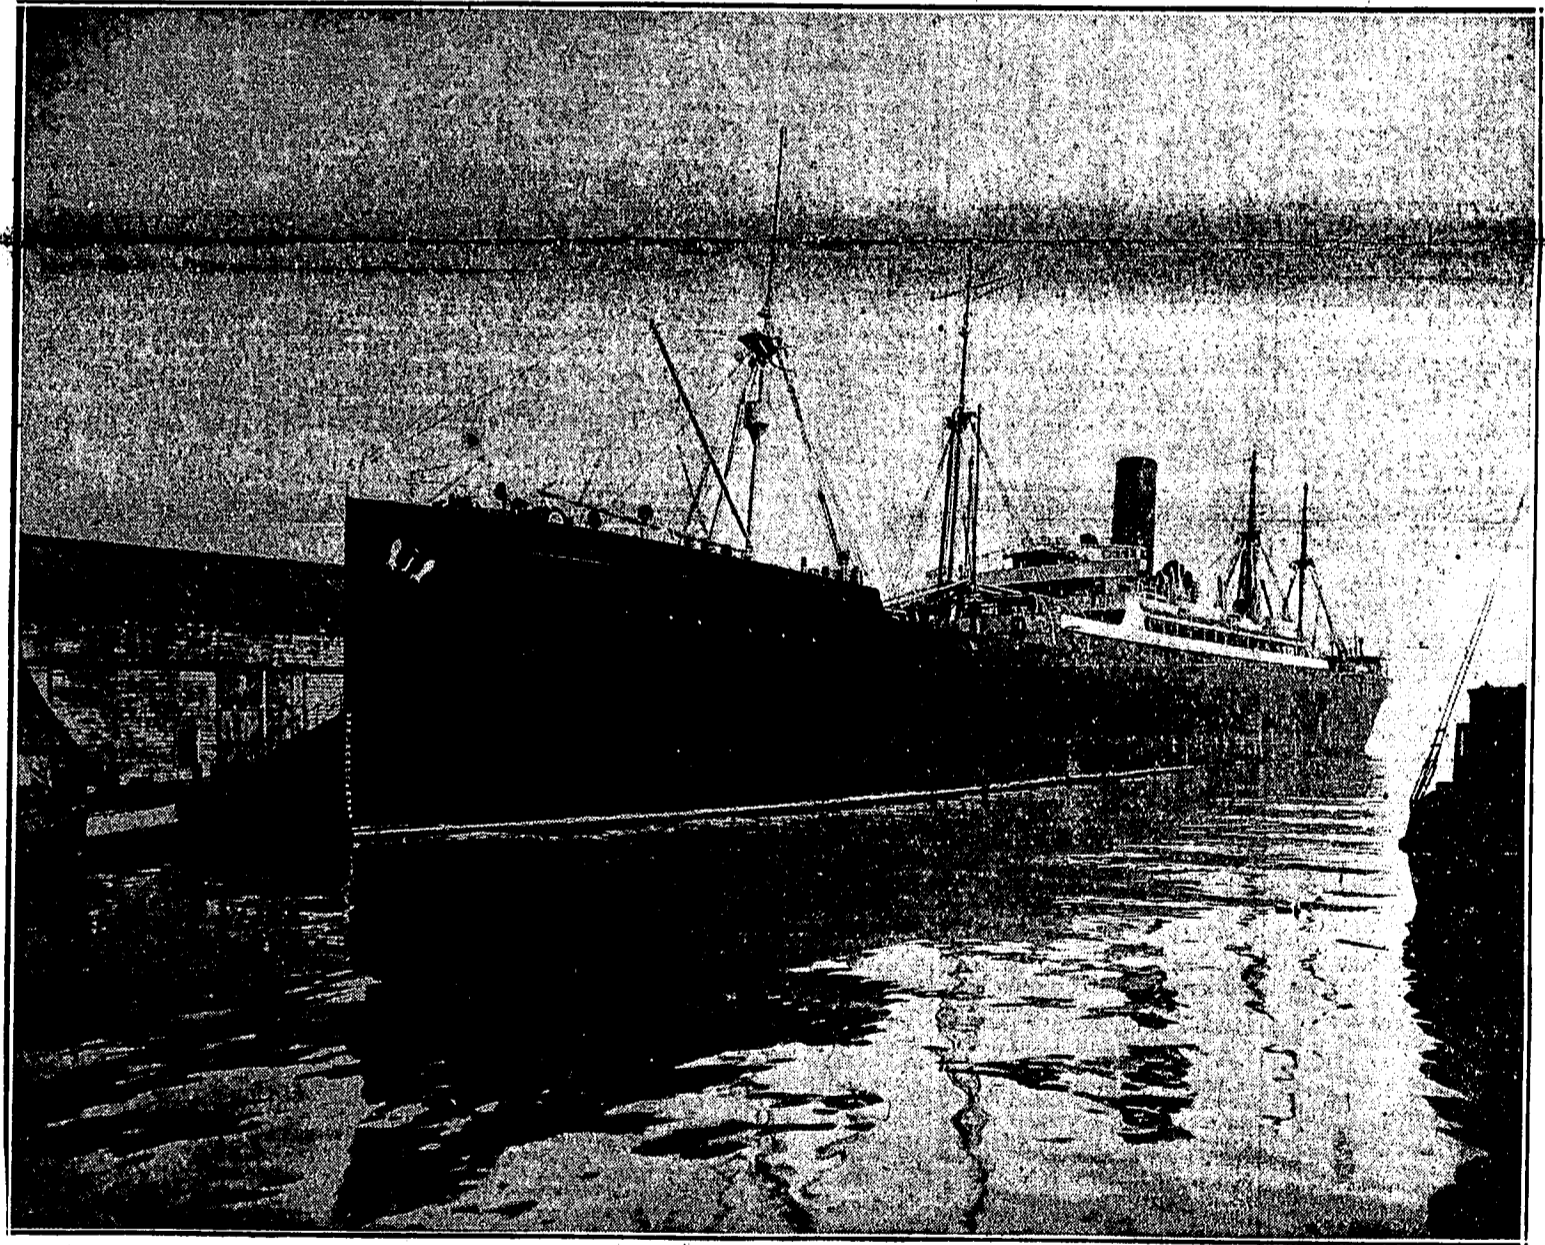

matters affecting the organization. Delegates coming from any Division or Chapter two months in arrears will not be allowed to speak or vote on organization matters.

We must have our ship to complete our arrangements, and this will be if you send in your loan today.

With best wishes for your success, I have the honor to be
Your obedient servant,

MARCUS GARVEY,
President-General,

Universal Negro Improvement Association,
New York, July 1, 1924.

If the members of the Universal Negro Improvement Association and other Negroes will loan the Black Cross Navigation and Trading Company, Inc., \$125,000 more in the next fifteen days, then the negotiations for this ship can be perfected and the ship purchased. If you want this ship by September to carry our Colonists, then loan the money now.

If Every One Acts

If every member of the race will do his and her duty now by loaning the Black Cross Navigation and Trading Company \$1,000, \$500, \$250, \$200, \$100 or \$50 for five years at an annual interest of five per cent, then we will have the necessary amount to carry through the arrangements for the ship. It is no use waiting to see. That

THE COLONIZATION PROGRAM FOR LIBERIA

UNIVERSAL NEGRO IMPROVEMENT ASSOCIATION RAISING FUND OF TWO MILLION DOLLARS FOR BUILDING FIRST COLONY IN LIBERIA

EVERYBODY ASKED TO HELP WITH A DONATION

NEGROES TO HAVE HOMELAND OF THEIR OWN

FOUR SEPARATE COLONIES TO BE BUILT

The Universal Negro Improvement Association is now starting to carry out its colonization plans for helping in the cultural, industrial, agricultural, economic, educational and social development of the black republic of Liberia, west coast of Africa, as a permanent home for the scattered Negroes of the world who desire to live in a country of their own where they may enjoy the benefits of real freedom, liberty and democracy.

The good people of Liberia anxiously welcome to their country their hearts and their ideals the sober-minded, industrious, law-abiding, ambitious Negroes of America, West Indies, South and Central America and Canada who desire to settle among them and become a part of a peaceful growing black nation. The Universal Negro Improvement Association is now helping in this direction as the Jews are helping to build and restore Palestine.

The Association has undertaken to develop four colonies in Liberia, the first to be built on the Cavalla River, to which the first group of colonists is expected to sail in September of 1924 from New York and regularly thereafter.

The Association is to spend two million (\$2,000,000) dollars on the development of each colony for public works and other utilities.

They are now raising the first two million (\$2,000,000) dollars for the building of the Cavalla colony.

The following plans are to be carried out for the building of each and every one of the four colonies, all government buildings, however, to be under the direction of the Liberian Government and all persons shall observe the laws of the Republic of Liberia accordingly:

BUILDING PLANS Government

1. Court House and Post Office.
2. Town Hall.
 - a. Public Safety
 1. Police Station
 2. Fire Protection
 3. Hospital

Community Interest and Entertainment

1. National Theatre
2. Churches (2)
3. Large Public Hall
4. Public Park.

Public Education

2. Public Schools (2)
3. Public High School (1)
4. College of Arts and Sciences
5. Trade School and Engineering Works.

Public Utilities

1. Electric Light and Power Plant
2. Water Filtration Plant
3. Sewage System and Sewage Disposal Plant
 - a. Transportation Facilities
 1. Roads, Streets and Pavements
 2. Wharf and Dock and Water Front Improvement
 3. Railroad, 4-15 miles.
 - b. Commissaries (2)
 - c. Dormitories (2)

All those who desire to help the Negro under the auspices of the Universal Negro Improvement Association in developing himself are asked to subscribe to the fund of two million (\$2,000,000) dollars now being raised for the promotion of the Cavalla Colony. The first group of engineers will sail in a few days to start construction work for the accommodation of the first group of colonists who will leave in September.

Please help this fund with a substantial donation. Address your donation to the "Colonization Fund, Universal Negro Improvement Association, 56 West 135th street, New York, U. S. A." All substantial donations will be acknowledged by letter and by publication in The Negro World. Small donations will be acknowledged in The Negro World weekly.

WHAT OUR GRADUATES ARE PLANNING TO DO

Why Do So Many Go in for the Profession and So Few as Tradesmen and Mechanics?

(From the Washington Tribune)

An absorbing question at this season of the year confronts the graduates of the various schools. The question is: "What shall I do?" The proper answer to that question for each graduate spells success. The failure to properly answer that question means wasted time, money and energy and a mediocre life.

There is some interesting data in the year book of the Dunbar High School, just off the press. The young men and women of the senior class are classified as to what course they intend to pursue after leaving high school. Of the 161 girls of the class, 134, or 83.2 per cent, aspire to be teachers; 12.2 per cent want to take professional courses, like medicine, nurse training, law and elocution, and only nine, or 5.5 per cent, aspire to get into the business world as typists, bookkeepers, modistes, etc.

With the 60 boys of the class, 48, or 73.3 per cent, will take professional courses such as, 19 for medicine, 10 for dentistry, nine for pharmacy, five for the law and one for the ministry. Only four of the boys have a desire to enter business, and none express a wish

to pursue any of the higher mechanical vocations, such as machinists, architects, engineers, etc.

Economics is often termed "the science of business." With that idea before us, it is a sad commentary on our outlook economically, as a race, when less than one per cent of high school graduates aspire to enter business or mechanical pursuits.

It is evident that the future of America and of the race is in our coming generations. These young men and women who are coming out of our high schools this year will be the men and women in charge of affairs tomorrow. Our future depends on the vision and inspiration that actuates their lives. If they have clear visions, clean hearts and strong wills to carry out their purposes they will mold a successful future for the race.

The professional men and women of Washington are the controlling factors of the social life of this city; and "society" is the biggest thing in Washington. As a result few of our boys and girls are inspired by object lessons to pursue the more prosaic courses, of mechanics and business. A race cannot be built on professional men and women. They are in the minority in all well defined and progressive nations or countries. The economic phase of our life, creates a need of trained mechanics and business men, even greater than the professional demands of the race. Outside of the ministry, we are pretty well established with trained men in the professions. But on the economic side we are sadly wanting in equipped and trained men and women.

Society, politics, professions and arts are supported and therefore dependent upon our economic life. Our failure to make headway economically is our greatest barrier to progress.

We now need to appreciate the value of organized effort, and for leadership we must turn to men who have made that step themselves with their own capital and experience.—Kansas City Call.

PROMINENT LEADER OF U. N. I. A.

LADY HENRIETTA VINTON DAVIS

Fourth Assistant President-General of the Universal Negro Improvement Association and Director of the Black Cross Navigation and Trading Company, Inc., who sailed Wednesday, June 25, from New York, for Panama, Colon, Costa Rica, Soconusco, Jamaica, British Honduras, and Puerto Barrios, Guatemala, in the interest of the organization and the Black Cross Navigation and Trading Company.

King's Name Taken From the Irish Oath

DUBLIN, Ireland, June 27.—The King's name has been eliminated in the oath and indictment under the new Criminal Justice (Administration) Bill, the text of which has just been issued. It is also provided that prosecutions are to take place in future at the suit of the attorney general and that the statement of offenses is to be couched in ordinary language. Section 9 provides that criminal charges, upon indictment in any court, shall be at the suit of the attorney general, and Section 1 sets out the oath to be administered to jurors at criminal trials in the following terms: "I do swear by Almighty God that I will well and truly try the issue as to whether the accused is guilty or not guilty of the offense charged in the indictment preferred against him (or her), and that I will give a true verdict according to the evidence."

African Sacred Stone Sued For in Germany

BERLIN, June 20.—Who owns the sacred stone of the tallless alligator? That is a question, unprecedented in these parts, confronting the Hamburg District Court. The stone is an African tribal fetish, brought recently to Hamburg by Hans Schomburgk, German explorer and movie operator, from the Liberian hinterland. The Liberian Consul General to Germany declared the stone was stolen, and has brought suit to recover it and restore it to the sacred grove whence Herr Schomburgk obtained it. The stone, which has engraved upon it the figure of an alligator without a tail, has been venerated for centuries by the West African tribes, and people flocked from miles around to the sacred grove to bow down before it. Herr Schomburgk claims that he bought it for £1 from a tribal chief, but the Liberian Consul General declares Herr Schomburgk merely bought the right to take pictures of it.

BISHOP COPPIN IS DEAD AT PHILADELPHIA

Senior Bishop of African Methodist Episcopal Church After Long and Brilliant Career, Dies After Short Illness — Forty Years in Ministry

Bishop Levi Jenkins Coppin, 20th Bishop of the African Methodist Episcopal Church, died at his residence, 1813 Bainbridge street, Philadelphia, Pa., Wednesday night, June 25, at 10:45, after an illness of several weeks. He was born in Fredericktown, Md., December 24, 1848, one of eight children of John and Jane Coppin. He attended school in all about five years, and the remainder of his education was secured by private study. He later attended the F. E. Divinity School of Philadelphia, from which he was graduated. He was converted and joined the A. M. E. Church in 1865 and was licensed to preach in Wilmington, Del., in 1876, joining the Philadelphia conference in 1877. He was ordained a deacon in 1879 by Bishop Payne, and elder in 1880 by Bishop J. M. Brown. He served the following charges: Philadelphia City Mission, Morris Brown Mission, Allen and Bethel, all of Philadelphia, and Trinity Church, Baltimore.

He was elected editor of the A. M. E. Review, serving from 1888 to 1896, and elected Bishop in 1900. He was a member of every General Conference since 1880; member of the Sunday School Union Board, 1884-88; president Educational Board, 1908-12; president Church Extension Board, 1912-16; fraternal delegate to the M. E. Church Conference in 1900; member of two Ecumenical Conferences; member of Commission on Federation with A. M. E. Zion and C. M. E. Churches, 1907 and 1911. He received the honorary degrees of D. D. and LL.D. from Wilberforce University. He was a 3rd degree Mason.

He was married to Miss Fannie M. Jackson, who was for more than 20 years principal of The Institute for Colored Youth, in 1880. She died in 1913, and in 1914 he was again married to Miss Evelyn M. Thompson, M. D., a graduate of the Women's College Hospital of Philadelphia, to which union was born one child, Theodora, both of whom survive him.

At the last General Conference held in May at Louisville, Ky., by the retirement of Bishop E. F. Lee, Bishop Coppin became Senior Bishop of the Conference and as such presided at the Council meeting at Louisville.

Funeral services will be held from Bethel A. M. E. Church, 6th street below Pine, Tuesday, July 1, at 10 A. M. The remains may be viewed from that church Monday night.

Bishop Coppin was author of a number of works, among which are "Unwritten History," "The Key to the Scriptures," "Syllabi," "Baptized Children," and "Sunday School in a Nutshell."

MacDonald Gets Another Warning in Commons

LONDON.—The labor government sustained another defeat in the House of Commons by the substantial vote of 315 against 175 in consequence of a Conservative-Liberal combination against the government's plan to deal with the financial provisions of the housing bill. The defeat, however, was one of procedure and not of principle. No political significance therefore was attached to it.
