WIDE-AWAKE NEGROES SHOULD HELP TO MAKE THE NEGRO STEAMSHIP LINE A SUCCESS

Fellow Men of the Negro Race, Greeting:

There are times when we must be serious with each other. Such a time is now. We are serious because we have a serious program to put over in a serious world. The world in which we live is so serious that the life of races and nations amounts to very little. Men and races die and nations change, a process that has become eternal, yet in the midst of all we must prepare ourselves to live, and so the Universal Negro Improvement Association is working with might and main not only to make the Negro race live through its length of days as numbered by the Great Almighton but to resurrect from the sto this corporation what they can afford. You ruins of the past our ancient glory and honor and establish ourselves once more as a national force.

Rally to the Standard

Tending toward this end, we call upon the four hundred millions of our people the world over to rally to the one standard, the standard of race love, of race pride, of race unity and of race independence; the standard that spells the emancipation of the entire race. It is such a program that we call upon you to support today Our fourth international convention has just risen. During its deliberation the delegates and deputies from all parts of the world decided that the most solid foundation the Negro could lay at this time was that of firm and secure industrialism. We decided that we would, through the Black Cross Navigation and Trading Company. lay such a foundation in industry and commerce as to guarantee the future economic existence of our race, and now we are calling upon you for the support necessary to make this possible.

Need Money to Pay for Ship

We are still in need of money to pay for our first ship. By the time this message reaches you we will be in need of \$60,000 more. Another payment is to be made in another few days on the ship, and the corporation needs all the money possible to meet the obligation. It is for every Negro man and woman, and even child, to loan

can help us not only to secure the ship, but to capitalize our industrial enterprise by loaning us \$20, \$25, \$50, \$100, \$200, \$300, \$400, \$500, \$600, \$700, \$800, \$900 or \$1,000, according to your ability for a period of five to ten years, bearing you an interest of 5% annually. This money that you loan, along with that of others, will go to capitalize the corporation, pay for its ship and start it off in business. We want our ship to be in operation by next month, to sail out of New York with its first consignment of freight and passengers. The S. S. General G. W. Goethals, to be rechristened the S. S. Booker Washington, will again open up for the Negro the opportunity to the new field of industrialism and commerce. Our ships are to convey the raw materials and produce of our people from Africa to the West Indies, South and Central America to us in the United States and to take back from the United States to those people our finished and manufactured products, thereby giving employment to our race in different parts of the world. Help us to make this first ship a success so that we can have others, and thereby build up a stronger merchant marine and expand our usefulness to the race throughout the world. There are fields yet to conquer for the Negro race in industry and commerce. The teeming millions of Africa are to be clothed, fed and taken care of with the necessities of life. Let us manufacture these things in the United States of America and the western world and ship to them, and let us take from them their raw materials, their palm oil, coffee, coca and hides which we can

use in our factories, thereby insuring employment for the millions who in a short while will be thrown out on their own resources.

Laying the Foundation of the Future

We must lay the foundation now for the future. Don't wait until the future stares you in face with its hardships and difficulties before you realize what should be done. Realize what is to be done and do it now. If you have \$100 loan \$50 to the Black Cross Navigation and Trading Company. If you have \$1,000, loan \$500 to the Black Cross Navigation and Trading Company so that we can lay a solid foundation, one of security on which the race can build. We are not millionaires, we are not a rich race, but if each and every one of us will do just the little that we are capable of, then with the accumulation of the whole we can put over our big program. Let us defeat our enemies by making a success of the Black Cross Navigation and Trading Company. The more ships we put on the ocean, the weaker will become the enemy and the stronger will become the race. The members of our own race who have been fighting us will realize their mistake and rue the day they constituted themselves stumbling blocks in the progress of our people. So let us go right forward and do the best we can to put over the program of the Universal Negro Improvement Association. There is much for us to do, and we must do it, and do it now. Don't let this appeal fall upon deaf ears, but, as you read it, send in what support you can by way of a loan to the Black Cross Navigation and Trading Company, 56 West 135th Street, New York, U. S. A.

With very best wishes for your success, I have the honor to be

Your obedient servant,

MARCUS GARVEY,

President-General.

'LOST VIGOR

"Glands Awakened in One Day" Is the Amazing Statement of a Seventy-six-Year-Old Voteran.

Lost vigor, deadened glands and nerves, and that weak, worn-out, depressed and half-alive feeling need not be dreaded any longer since the discovery of a well-known chemist. Now it is possible for those who feel "prematurely old" to become "rejuvenated" and regain the "vital force of youth, often in a day's time, with Mando Formula, is the amazing statement of one who has taken the treatment. This famous discovery is bringing "renewed".

tamous discovery is bringing "renewed youth" and "strength" to thousands where everything else had failed.

"I want to say that my lost vigor" was restored and 'glands renewed' in twenty-four hours," says D. B. Peake of Kansas City, Mo. "Today I am 76, but I don't feel a day over 40. Before I started taking the treatment I feit I was an old, 'worn-out' man, but now I am enjoying a remarkable 'gland restoration' and am convinced my 'rejuvenation' is complete and permanent. May God's blessing rest on the discoverer of such a boon to humanity."

This wonderful formula, prepared by one of the largest laboratories in the world and generally known as Mando, is easily used at home and seems to work like magic in its rap. lity on people of all ages and sexes.

No matter what your age or occupation, no matter what you have tried, if you are lacking in "vigor" and the "vital force of youth" we are so confident Mando Formula will restore you that we offer to send a large \$3.50 bottle for only \$1.95 on 10 days' free trial. If the results are not satisfactory and you are not more than pleased in overy way, it costs you nothing.

Send no money—just your name and address to F. L. Carlin, 606 Baltimore Bidg. Kansas City, Mo. and the treatment will be mailed at once. Use it according to the simple directions. If at the end of the 10 days you are not showing 'wonderful improvement' and "rejuvenation," just send it back and your money will be refunded without question. This offer is fully guaranteed so write today and give this "remarkable formula" a trial.

Correspondent Says if the Negro Does Not Hurry Up White Man Will Drive the Natives to Despair and Other Things

To the Editor of The Negro World:

Kindly allow me a letter space in ur paper. The very unfair treatment, as Negroes get from the whites, is disgusting that the Negro who still as faith in the white man is a "damn has faith in the white man is a "damn fool." Since the advent of The Negro World here in Kimberly, our agent, Mr. Joseph Masogla, is having a hot time on all sides, especially at the post office. By reason of this big supply he goes personally to fetch papers. Conspicuously perched back-side, forward on a dray he hires to take his load home, hence he comes in contact with the ministering angels (?) of the office who makes the few minutes as hot as possible while he bags his goods, looking out on all sides for kicks, punches, eneers, insults and impertinent questions, which latter he gets with a vengeance.

Prejudice and conceit in the whites are such, of late, years that any confidence or respect the subordinate and so-called inferior races had for them has vanished like thin smoke. They

Madam Hackley gave most of her time toward elevating and dignifying the Negro folk songs, due, perhaps, to her keen appreciation of their beauty, harmony, rhythm and naturalness. This was necessary then, like now, for most colored people looked with shame upon these soul-touching songs—of course ignorant of their profundity of thought, their spiritual and emotional significance. Our Flag and Anthem Forever and Aye

To the Editor of The Negro World: From the very beginning of the Association we have been taught to revere the colors, Red, Black and Green, and today they form the flag of our race, especially for us in the Americas

"Ethiopia" is our universal anthem We love it as we love the flag. We cannot part with them under any circumstances. Every Negro is ready to drain his blood in defence of the Red. the Black and the Green. But what will become of them (our flag and anthem) when we have an established form of government?

Of course, we do not entertain any doubt of the success of the proposed colonization and the ultimate benefits be derived therefrom, but the thoughts of petty internal differences which have brought ruin to many powerful kingdoms of the past and which are ever eating away the vitality of other strong nations prompts me to hope this phase of the matter will be taken into consideration.

RAMPANT IN THE **BRUTAL SOUTH**

No Lull in Lynching as Reported-Newspapers and ing News; That Is All

(As Seen by a Baptist Official)

That mob rule still prevails to a great extent in the South is attested to by the corresponding secretary of the black angels, the great black throne National Baptist Convention, who in his travels in the South was brought face to face with conditions which have put to rout the talk of better treatment of Negroes in the South which has been broadcast so frequently during the past six months. Writing in the "Mission Herald," the official organ of the Foreign Mission Board of the National Baptist Convention, the secretary says:

> "As we travel over the Southland through the States of South Carolina, Georgia, Mississippi : nd Louisiana, we were constantly dying the condi-tions of our people and the relation of th. races. In man, places, the treniendous progress being made by the colored people is most gratifying. Many of them are doing so well and living under such good circumstances they would not think of breaking up their homes and leaving the South, ve mob rule often threatens to shake the very foundation of our people's security in every part of the South. One doesn't read so much now in the papers about lynching of colored people as was read a few years ago It is being argued everywhere that the white man is treating the colored man better, only to keep him in the Southland. This argument is made because so much less is seen in the papers of mob rule these days, but during our last trip over the Southland we were made to wonder more only silent as to lynch and moh rule which is as widely prevalent today as was before the migration.
> "The very Saturday we got into Pine

Bluff, Ark., the policeman at the station, a very rough kind of man, started a little row that almost led to a rac Honduras. I felt to do some great work for the U. N. f. A. in the future. I cannot start right away now as I am a boy. He knocked her down. The husband but I am just waiting a little. Mean- of this young woman said: 'She is while waiting I am practicing by mywhile waiting I am practicing by myself. I cannot express to you how I feel
with regard to certain things that I
man struck him down. While he was I am interested in this movement, for it is the uplifting of one and all of this race. God has chosen this noble in his eyes, his lip quivering, his man, Marcus Garvey, to gather us from blood almost to the boiling point, and said to the officer: 'Stop beating that beating the colored woman, who was girl. If you hit her again, you will never hit anyone else in this world." The chief of police, who was standing nearby, at once joined in and raised his club to strike this brave colored man, but the colored men enjoined quickly, as he called the name of the chief of police: 'Do not hit me; you West Indian Physician can arrest me, but, I beg of you, do not hit me today. The chief of police must have seen something in this little Negro, for he changed his mind and bleeding from the beating by policeman's club, together with her husband and the other gentleman who intervened, was started off to jail, but somehow she broke loose and ran away from the policeman. He shot at he were lodged in jail, and no plea to bone the young woman so that she might have medical attention had any effect

> world. This brave young fellow still revealed his manhood. He told then sworn since I have been in church else swearing, but I did say if the would never hit any one else in this world and I meant it." All presen white and black, could not help admiring the real manhood that was demonstrated in every look and act of that young colored fellow. The court put a light fine of \$10 on the man and wife, and on the young man who intervened a fine of \$25. The latter at once told the court the best thing for him to do was to sell out everything he had and go away, for he saw that no colored man could get a square deal in that town. The chief of police called him back into his office and talked with him very kindly, and advised him always in the future when he saw a fight, to get away and not to stand anywhere near. In other words if he saw a great big officer merci-lessly beating up a little colored lessly beating up a little colored woman, he must leave the scene and not stand anywhere near. The Minis. ters' Alliance decided to take the matter up, and make a petition to the government. We have heard no more about it. We have carefully watched the papers for this meident that caused so much excitment around the station at Pine Bluff, where hundreds of colored people gathered while this

beating and shooting was going on, but not one line appeared in the papers concerning it. To the reader every thing was calm and pleasant, and the races were getting along fine in Pine Bluff when this happened.

The day before we got into Meridian, Miss., a mob had gone to the fall in one of the nearby towns and taken out a colored man and hanged him without a trial. He was accused of assaulting some white woman. We saw an account of that in the press.

Some few days before we reached Canton. Miss., two officers had gone to a country place to arrest a man who News Agencies Suppress- was supposed to be stopping with his brother, but the men could not find him though the house was searched. Late in the night they returned to the house and asked for him. They were told that the brother had not turned up. They wanted to search the place and did search it, all but one room where some young ladies were sleeping. The owner of the house asked them not to go into that room, as young ladies were sleeping there. The second time he insisted, and at such insistence, one of the officers said to him, "you don't know who I am," reaching for his gun at the same time. The wife of the for her husband, but to no avail. He Mass., that mankind breed for smaller simply reached over the shoulder of the wife and shot the colored man dead, and leisurely went on back to any of the daily papers. To the reading world everything was going al-right in Canton the day it happened We were just wondering, as we see these sad conditions, whether or not many things are happening throughout the Southland that are being with held from the press in order that pub-lic sentiment might not be in favor

From the New York World

More than a century ago Malthus pointed his warning that misery impended for all the prisoners on this globe of ours because the population was increasing more rapidly than the means of sustenance. It has taken all this time for us to hit upon a solution of the problem. Consider the proposal of Prof. Henry Pratt Fairchild at the Institute of Politics in Williamstown. size.

Possibly Prof. Fairchild may have been misunderstood. Any householder will tell you that platters must be heaped as high for large. The real solution lies not in the stature of the diners but the number of them. What Prof. Fairchild may have meant is that we breed for larger size. And so, when the matter finally vorked out, there would be room for fewer men on this planet and need for fewer trenchers. But the fearful

It is indeed a problem, this swift in crease of population. In the last century it went up from 700,000,000 persons to 1,700,000,000, says Prof. Fairchild. Prof. J. W. Gregory, president of the Geographical Section of the British Association for the Advance-ment of Science, speaking at its re-cent meeting at Toronto, declared that in 120 years the earth would not be able to provide enough food for its popula-, and that by the year 8000 there would be standing-room only, except in the polar regions. Here is a terrify-ing picture of the overcrowding of the earth, with famine, pestilence, war and all attending evils just around the corner. Mankind is facing one of those
