# IN MEMORIAM

FELLOW MEN OF THE NEGRO RACE, Greeting:

It is sad for us at this time to mourn the death of one of the race's greatest characters, in the person of Chief Justice J. J. Dossen of Liberia, who died on the 17th of August, 1924, at his home at Cape Palmas, Liberia, West Africa. Very few of us outside of Liberia know of the value and worth of this great man. He was not only a true, patriotic and loyal Liberian, but he was a lover and patriot of his race, and of no mean order. His only great hope was that one day the scattered sons and daughters of Africa would reassemble in their own Motherland and there, under the protection of a strong government of their own, enjoy real freedom and liberty.

### Disposition of a Great Man

Toward this end he was willing to place at the disposal of the race, through the Universal Negro Improvement Association, all his energy and ability, which was great, to the end that we would all concentrate upon the building up of the good republic of Liberia as a first rate nation in Africa. He was unlike many who view the Universal Improvement Association with suspicion in Liberia. He was too broad, too liberal, too patriotic to think that other Negroes could have any other intention than that of helping to strengthen and solidify their race and make thereof a great power in the world. James Jenkins Dossen was right. He was a true reader of the human mind and heart. He knew well that the Universal Negro Improvement Association's purpose in Liberia was one of friendship, love and helpfulness and for that he was willing, with men like Arthur Barclay, to do his best to advance the cause that would mean so much to his country and race.

### Gone to Great Beyond

Unfortunately, he is no more. He has gone to the great beyond, but true as he was, even on his dying bed, he handed over his mantle of service to his race and helpfulness to the Universal Negro Improvement Association to others in whom he had great confidence, asking them not to desert the good ship of the Universal Negro Improvement Association because of the evil reports of the enemies against the Association, but to stick to it for its principles. which are honest and above board. Judge Dossen was indeed a strong man. He did not allow himself to be influenced by the many agencies against the Universal Negro Improvement Association. His character was so firm, so strong and his depth of understanding was so profound that he was able to grasp the situation immediately and not allow himself to be influenced. Evil men on this side of America who wrote vicious statements against the Universal Negro Improvement Association and sent them to Liberia for circulation to create prejudice had absolutely no influence on Chief Justice Dossen. While their evil propaganda affected others in Liberia, it did not in any way interfere with the firm conviction of this great man whom we mourn at this time. Men like Du Bois had no influence over Chief Justice Dossen, because he was able to read behind their smiles their evil designs and intentions, not only aganst the Universal Negro Improvement Assocation, but against Liberia herself.

### The Evil That Men Do

But what does it all lead to—the evil that they have done? Not so much to injure the Universal Negro Improvement Association, but to injure the cause of Liberia

and injure the cause of the race; yet they profess to be friends of those who are in power in Liberia. If those who are in power could only know the treachery and evil that lurk behind these men who profess to be friends! We are glad, nevertheless, that we had and still have men like Chief Justice J. J. Dossen; men who cannot be easily moved and persuaded from what is just, right and honorable; men who prefer death to dishonor. As we intimated before. we feel that Chief Justice Dossen died not because he was suffering from natural ailments, but because of the sudden shock on learning of what those who were in control of the government of his country had done against the Universal Negro Improvement Association in carrying out the program for the country and to which there was a standing agreement to which he himself was a party. Men of honor cannot tolerate treachery and deceit, and James Jenkins Dossen was one of those who stood above it.

### Honor a Great Liberian

We call upon the four hundred million Negroes of the world to mourn for this great and noble man; to pray for the entry of his soul into the Kingdom of God. Surely his good work and deeds shall not pass away, but we shall record them in the book of time and ever remember him for the noble and grand and good things he did during his life time. In the building up of Ethiopia surely we shall erect another great monument to another great soul, that of James Jenkins Dossen. As we mourn for him we are heartened to know that in Liberia there still exist men who stand for the highest and loftiest in service to the race, and who are not too narrow nor jealous, but who are willing to link hands and hearts with others who are desirous of doing good. On such men the Universal Negro Improvement Association depends for the successful carrying out of its program; that of industrially, agriculturally, commercially and educationally developing the country to become one of the great forward nations of the world.

### Irresponsible Negroes Make Trouble

Irresponsible, malicious and jealous Negroes of the United States of America have tried by all means to misrepresent the Universal Negro Improvement Association to the government of Liberia, and a few Liberians themselves have allowed themselves to be used to hurt their own country and the great cause of her development, but sooner or later the truth will be known and when the great Liberian people get to realize that they have no friend outside

of Liberia better and greater and more sincere than the Universal Negro Improvement Association, then they will see and realize the harm and injury done to them by the few of their own and by those in America who are but agents of those who desire to keep the Negro a serf and to exploit him for all that is possible. The world wants more men of the type of James Jenkins Dossen. Men who can rise above the little prejudices of life, the little rivalries and jealousies and live for the common good.

### Garvey and Liberia

In Liberia some of those in control imagine that Marcus Garvey desires to go to Liberia to become President or to interfere with the politics of the country. How silly, how foolish. J. J. Dossen was one who did not believe in such things, because Marcus Garvey has much more work to do among Negroes than to domicile himself in Liberia to interfere with its politics. All that Marcus Garvey desires to see is a great Liberia, a great Negro nation, one of the many to be created in Africa for the good of the Negro race. How could he be President of Liberia, President General of the Universal Negro Improvement Association and still be working for the creation of other Negro nations. strong and powerful, to advance the dignity and honor of the Negro race? If those who are jealous of the success of their fellow men would get to realize that there is much for each and every one to do in his own sphere, then we would not have so many misunderstandings.

### Dossen a Great Patriot

Let the good people of Liberia realize that Chief Justice Dossen was one of their greatest friends and patriots. We, on this side, love him because he was great of soul. We shall ever honor him because of his liberality of purpose, and we hope that other Liberians will imitate the life and work of the great man who has fallen. In all the correspondence carried on betweeen the Universal Negro Im provement Association and Chief Justice Dossen there was not a line in which he did not breathe the spirit of good will toward his race and express the hope for the salvation of his country and for the ultimate return to the Motherland of all the scattered sons and daughters of Ethiopia. His last letter, written on the 1st of July, is a document worthy of preservation. It was his last communication to the Universal Negro Improvement Association. It shall be cherished, and whenever we need inspiration for the carrying on of the great work we shall re-read the last words of James Jenkins Dossen, patriot, seer, statesman and martyr of Cape Palmas, Liberia, West Africa.

With very best wishes for your success, I have the honor to be

Your obedient servant,

MARCUS GARVEY,

President-General.

CLARKSBURG, W. VA., September 15, 1924.

P. S.—Negroes everywhere, and especially members of the Universal Negro Improvement Association, branches, chapters and divisions, are asked to rally this week to the Black Cross Navigation and Trading Company and the Parent Body of the Universal Negro Improvement Association. All moneys in hand for bonds for the Black Cross Navigation and Trading Company for \$20, \$25, \$50, \$100, \$500 or \$1,000 by way of loans should be sent to the corporation for the period of five or ten years. All those who have moneys on hand for the convention and other funds are requested to send same to headquarters immediately.

SCHOOL DAYS HAVE BEGUN AGAIN

HE public school system of the United States is one of the best blessings the taxpayers have imposed upon themselves and have pardonable pride in. They not only enable all of the children of the Republic to get the rudiments of education, but they feed the schools of higher learning in which thorough preparaion for the hard realities of life is mastered. All the schools began October all the schools of the country will be in active operation. We should all be grateful for the advantages of education that are free to all in a measure and at small cost in the larger measure. The masses get free education at their own expense withal; that is, the parents who are taxpayers, provide it, while the exceptional few

SHAKE UP OF THE NEGRO VOTE IN

WILLIAM H. LEWIS BOLTS G. O. P.

The readers of The Negro World are watching with interest the disposition of the Negro citizens to divide their political strength among the several parties, as the white groups are doing, due to the many issues that the American electorate have split upon and nominated candidates for the presidency to represent them. There are said to be some ten such presidential candidates in nomination. They represent the political discontent which exists among all elements of the voting population at this time. Whether it is a healthy

sign each one must decide for himself. Large numbers of Negro voters have lost faith in the Republican party and its policy of side-stepping questions that affect the race, and most of them are thrown into the air by the alliance which the party has made in several of the States with the Ku Klux Klan,

FEW months ago the Mexican Government issued an official invitation to Jews to settle in Mexico. The Zionist Organization in America disapproves of any large number of immigrants settling in Mexico on the ground that they will be subject "to the whims and vicissitudes of countries over whose destiny they have no control."

It has always been claimed that Jews were only interested in finance and did not actively engage in politics for the race. # APPEAL TO SENATE OF LIBERIA BY AMERICAN AND WEST INDIAN NEGROES IN CONVENTION AGAINST ACT OF EXECUTIVE GOVERNMENT

PETITION TO THE SENATE OF LIBERIA, MONROVIA, LIBERIA, FROM FOUR MILLION NEGRO MEMBERS OF THE UNIVER-SAL NEGRO IMPROVEMENT ASSOCIATION OF THE UNITED STATES AND MILLIONS OF NEGROES IN OTHER PARTS OF THE WORLD, THROUGH THEIR REPRESENTATIVES AT-TENDING THE FOURTH ANNUAL INTERNATIONAL CON-VENTION OF NEGRO PEOPLES OF THE WORLD.

May it please the Honorable Senate:

We, the deputies and delegates of the Fourth Annual International Convention of the Negro Peoples of the World, assembled in Liberty Hall, New York City. United States of America, from the 1st to the 31st of August, 1924, under the auspices of the Universal Negro Improvement Association, beg to submit this our appeal to your honorable body asking for such considerations as you may give in helping to remedy a wrong that has been inflicted upon the Universal Negro Improvement Association and, incidentally, upon millions of Negroes of America and the West Indies who originally planned to make Liberia their permanent home and of which country they had hoped to become citizens in keeping with the constitution framed and made law by your illustrious fathers and amended by your honorable selves.

As you may know, the Universal Negro Improvement Association represents the Negro masses in America and the West Indies. For six years this Association has carried on a continuous system of education among its people to the end that they be organized into one great movement looking forward to their return to Africa, from whence their forefathers were taken centuries ago and to there rehabilitate themselves and to once more possess themselves of the land of which they were original owners. With this end in view, it was decided that the most convenient way of their being able to help their native land, Africa, was through assisting the Republic of Liberia to establish herself as a successful nation through her higher industrial, agricultural and commercial development, thereby proving completely the Negro's undisputed ability for selfgovernment.

### NEGOTIATIONS WITH THE GOVERNMENT

Being mindful of the fact that Liberia was established over one hundred years ago to offer such an opportunity for the race to demonstrate itself in the higher sphere of government and that you and your fathers have so nobly demonstrated this ability, and, knowing that we at this end possess material, financial and other resources that we could place at your disposal in helping to further develop the country, we sought the good graces of your government in 1920 through the offices of His Excellency President Charles King and the Honorable L. Edwin Barclay, Secretary of State, requesting that the Universal Negro Improvement Association be admitted into the country and be given such rights, concessions and facility to work, as would enable us to assist in the development of Liberia as per document No. 1 attached hereto and answer, document No. 2, signed by the Secretary of State, the Honorable L. Edwin Barclay. After an understanding had been effected in 1920, as above referred to, the Association was again assured in 1921 by the Honorable L. Edwin Barclay, Secretary of State, acting as President in the absence of President King on his way to the United States of America, that every facility would be granted to the Association to carry out its program, and again in February, 1924, the Association sent to Liberia a third commission headed by Sir Robert Lincoln Poston, which commission was received, after proper representation on the part of our attorney in Liberia, the Honorable Arthur Barclay, by the President, His Excellency Charles B. King. At the meeting attended by the Honorable Arthur Barclay, the Honorable late Chief Justice J. J. Dossen and the delegation consisting of Sir Robert Lincoln Poston, Lady Henrietta Vinton Davis and the Honorable J. Milton Van Lowe, the President, His Excellency Charles B. King, outlined a program of operation for the Universal Negro Improvement Association in Liberia, in keeping with the original agreement of 1920 and the endorsement of 1921 and subsequently appointed a committee consisting of prominent citizens of Liberia and members of the government, namely, Vice-President Wesley, the late Chief Justice J. J. Dossen, Hon. Arthur Barclay, ex-President Howard, Honorable J. Carranda, Honorable W. Dennis and Honorable Dixon Brown, as a committee to assist the Universal Negro Improvement Association in carrying out the plan of colonization. We received from the committee certain suggestions embodied in document No. 3 hereto attached, which suggestions we attempted to carry out to the very letter, to the extent that we dispatched from America in June of the present year and July, two shipments of materials to the Cavalla region at Cape Palmas in care of Chief Justice Dossen, materials which are now on the spot and an expert group of engineerscivil and mechanical—to start immediate operation in preparing homes for the first group of colonists, which would leave America in October, according to the suggestion of the committee, for whose convenience we had already secured a steamship by purchase, of 5.300 tons, as well as signed contracts involving two million dollars (\$2,000,000.00) for further materials to be shipped away to the

## A BOLT FROM THE BLUE

After all this was done in keeping with the suggestions of the committee and previous understanding with the government as per documents attached and referred to, we were most rudely informed through the public press in America, without any previous notification from the government of Liberia, that passports of members of our organization would not be vised by Liberian consuls in America and elsewhere and that no one under the auspices of the Universal Negro Improvement Association be allowed to land in Liberia; that we were not wanted in the country, and reports of that evil nature.

All this was broadcast through the white and colored papers by the Consul General of Liberia, the Honorable Ernest Lyons, of Baltimore, without any offense on the part of the Universal Negro Improvement Association or without any previous intimation that there was anything wrong or unpleasant affecting the understanding that existed between the government and the Universal Negro Improvement Association and the Universal Negro Improvement Association and the local committee appointed by President King in February, 1924.

Adding further insult to our already good intentions, we were informed by cable from Liberia that our expert engineers, who included some of the best men of America and the West Indies, whom we had sent out under contract at great sacrifice, were rudely deported and not allowed to land. We also sent out Sir James O'Meally, High Commissioner General of our Association, a highly cultured and educated gentleman, and he also was not allowed to land, but had to seek refuge in Lagos, British West Africa, until he was able to communicate with us for his immediate return to the United States. Some of the men we sent out had large families at this end whom they separated themselves from, others had resigned government positions in the West Indies and America to take up the appointments with us in Liberia. Two of these men were not American cipiens, but British subjects, and under the quota for British subjects coming to the United States of America, on their return were not allowed to land, but had to be sent back to Holland, from where they trans-shipped to the United States, and again we had to remove them from Holland back to their original

homes in the West Indies and leave their families in the United States, whom we also have to ship out to them.

### NO REASON ASSIGNED BY GOVERNMENT

All this humiliation has been heaped upon us by the act of your good government for absolutely no justicause, because up to the present we have not been officially notified or informed that we have done anything displeasing to the government or in violation of the understanding that existed.

The above complaint is not the only one that we have to lay as touching the action of the government, but on the 26th of August of the present year, the Associated Press (white) of the United States, circulated through the white papers all over this country and abroad the following:

"LIBERIA DENOUNCES GARVEY PLAN; URGES U. S. TO CHECK BLACK HEGIRA "POLICY OF NEGRO IMPROVEMENT ASSOCIATION DECLARED INCENDIARY IN NOTE TO WASHING-TON—OPPOSES IT IN PRINCIPLES AND IN FACT

"WASHINGTON, Aug. 26 (Associated Press).—The Government of Liberia, in a formal communication delivered by Ernest Lyons, Consul General, has advised the Washington Government that it is "irrevocably opposed both in principle and in fact to the incendiary policy of the Universal Negro Improvement Association, headed by Marcus Gar-

"The note, signed by Edwin Barclay, Secretary of State of Liberia,

"'The Government of Liberia, irrevocably opposed both in principle and fact to the incendiary policy of the Universal Negro Improvement Association, headed by Marcus Garvey, and repudiating the improper implications of its widely advertised scheme for the immigration of American Negroes into the Republic under the auspices of this Associa tion, which scheme, apart from not having the sanction of the Liberian Government, does not appear to be bona fide, and has in addition a tendency adversely to affect the amicable relations of the Republic with the friendly States possessing territories adjacent to Liberia, desire to place on record their protest against this propaganda so far as it relates to Liberia, and to express their confidence that the Government of the United States will neither facilitate nor permit the emigration under the auspices of the Universal Negro Improvement Association of Negroes from the United States with intent to proceed to Liberia."

A similar communication was published in the "Daily London Telegraph" and other London papers, which again reveal that the Secretary of State of your good government and your President have undertaken to carry on a propaganda in foreign countries against the interest of the Universal Negro Improvement Association, without first giving the Universal Negro Improvement Association. with whom they have had an understanding, a chance or opportunity to defend itself against any imaginary departure from the original and only representation that we have made to your good government in our intention to help the

### ASKED TO RIGHT THE WRONG

It is for us to state that between 1920 and 1924 all our representatives to the government through President King and the Secretary of State have been wholly to the point of assisting to develop the country industrially, agriculturally and commercially and at no time have we ever suggested anything contrary to these intentions. The communications bearing date of 1924, the last commuications sent to the President of Liberia, hereto attached and marked 4 and 5 respectively, further explain our position and intention, and, therefore, leaves us at a loss to know that while we at this end entertained the most friendly and helpful intention and spirit toward Liberia, the President and Secretary of State should so endeavor to wound our feeling and try to hold us up to public ridicule.

It is in this wise that we petition your honorable body to take steps to right the grievous wrong because we believe in the honor and integrity of the Liberian people. We feel that you are blood of our blood and flesh of our flesh and that you would not willingly on your own initiative attempt to do us such injury and work upon us such harm that even a white government, unfriendly though they may appear to be, would not do.

We beg to draw to your attention that while our own black Republic of Liberia deported, humiliated and disgraced our own men sent there to help the country, that the British Government allowed our men to land on their territory in Africa and treated them most cordially until they were able to book passage back to the United States. We also beg to inform you that our representatives in France are most courteously welcomed and treated by the French, while, on the other hand, we have been treated so discourteously and humiliated

### DISCRIMINATING WITHIN THE RACE

We further petition you to intercede between the Secretary of State and the President to withdraw the unholy restriction and discrimination that they have made against the members of the Universal Negro Improvement Association and millions of Negroes in America and the West Indies from returning to Liberia to help in the development of that country. We, on this side, are aggrieved because there is national discrimination in our society, where our race is discriminated against by members of the white race. It is that discrimination that caused our fathers and your fathers to settle in Liberia, and it was freedom from such that caused you to adopt the motto "The love of liberty brought us here." yet the same liberty is to be denied other members of our race by your good government, quite contrary to the spirit of the constitution of good Liberia.

We ask, therefore, for your immediate action in this matter. Is it necessary that we call the attention of your most honorable body to section 8, Article 1, of the Bill of Rights of the Constitution of the Republic of Liberia?

"No person shall be deprived of life, liberty, property or privilege but by judgment of his peers or the law of the land.'

We beg to submit that there has been no judgment under such section of any violation of principle, privilege or rights of the Universal Negro Improvement Association in its relation with the government.

Again, we beg to draw your attention to Sections 12 and 13 of Article 5 of the Constitution.

"Sec. 12. No person shall be entitled to hold real estate in this Republic unless he be a citizen of the same. Nevertheless, this article shall not be construed to apply to colonization, missionary, educational or other benevolent institutions, so long as the property or estate is applied to its original purpose."

"Sec. 13. The great object of forming these colonies being to provide a home for the dispersed and oppressed children of Africa, and to regenerate and enlighten this benighted continent, none but persons of color shall be admitted to citizenship in this Republic."

Amended by Section 6 to read that Article 5, Section 12, be made to read: 'That none but Negroes or persons of Negro descent shall be eligible

to citizenship in this Republic.' Must we understand that the constitution is set aside especially to operate against the Universal Negro Improvement Association and the millions of Negroes who are members thereof?

### WILL CONSTITUTION BE NULLIFIED?

We feel that your honorable body will not so discriminate and thus nullify the constitution of the only free black nation in the world. We are making you, as above stated, for consideration and redress and trust that you will act immediately so as to enable us to carry out our good intentions toward the Republic and the race. We are still prepared and ready to give all aid to Liberia and to its people in helping to make her a first rate nation. We have absolutely no political designs. We are a peaceable, law-abiding group of people in America, where we operate, and for the last six years we have been recognized by the government, received by the State and Federal authorities, and by the President on several occasions, and it is alarming to us to learn that while white governments treat us with respect and decency, that our own should act in the manner complained of.

This petition must not be regarded as an insult to His Excellency, the President, and the Secretary of State, nor an attempt to hold them up to impeachment, or anything of the kind, but we desire to state the facts and ask for your help and good services in restoring the friendship and fellowship that we desire to exist between all parties concerned. We, after the publications by the Liberian Consul General in America, and by the broad publicity engaged in by the Secretary of State, have had to make one or two statements through our paper, The Negro World, for the purpose of clarifying our position and preventing public condemnation when we were not at fault. These, I trust, you will not interpret to mean any attack against the President or Secretary of State, but only statements made to justify our position at this end and save us from the condemnation of the public who were made to believe that we were not in earnest in what we were attempting to do in helping Liberia and to settle with colonists from this part of the world, the country that we love.

### THE FIRESTONE RUBBER COMPANY CONCESSIONS

We also beg to draw the attention of your honorable body to the great danger that lurks in the future through the granting to the Firestone Rubber and Tire Company of certain concessions, which we do hope have not been yet ratified by you. Whilst it is not in our province to interfere with your legislation, we beg to point to you the motives generally underlying white capitalists when they seek entry into the countries of weaker peoples. It is our firm belief that the Firestone concessions in Liberia will lead them ultimately to seek the usurpation of the government, even as has been done with the black Republic of Haiti after similar white companies entered there under the pretense of developing the country. It is general, as you may know, that certain members of the white race do not humor a government by darker and weaker peoples, and it is our belief that as time goes on, the Firestone Rubber and Tire Company's interest will seek to further tighten its hold upon the Republic with the ultimate aim of superceding its government and placing it into the hands of the white race. We are asking you, therefore, if it is possible, not to ratify the concessions and to guard most jealously the freedom and integrity of your dear country.

### U. N. I. A. REPRESENTATIVE SHOULD BE HEARD

We, your petitioners, further ask that your honorable body make provision to guarantee to the Universal Negro Improvement Association that a commissioner or advocate sent to plead before your honorable body or before any proper tribunal or before the officials of the government, the cause of the Universal Negro Improvement Association, shall be admitted to the country to make such representation and that no judgment be passed upon the Universal Negro Improvement Association or its membership at large until such plea has been made before your honorable body or before a responsible tribunal appointed by the govern-

We also beg to request of you that you pay no attention to the representations of the men, W. E. DuBois, his agents or representatives, who may directly or indirectly by anonymous and other harmful letters or communications, endeavor to prejudice you against the Universal Negro Improvement Association to the end that no honest assistance be given Liberia by Negroes who are in earnest to build up by and for themselves but that Liberia and the race be exposed to the designs of those who desire to exploit and humiliate them, for which Negro

agents in America and elsewhere are being used.

For these and other considerations, we, your petitioners, do humbly pray. Signed, for the five thousand delegates and deputies attending the Fourth Annual International Convention of the Negro Peoples of the World, representing eleven million members of the Universal Negro Improvement Association and

MARCUS GARVEY,

Speaker in Convention.
