HONORABLE MARCUS GARVEY REMINDS NEGROES THEY MUST JOIN IN WORLD BATTLE OF WITS OR PASS OUT

Fellow Men of the Negro Race, Greeting:

Allow me once again to convey to you my deep sense of appreciation of the splendid, untiring efforts which you are making at this time to hold aloft the banner of the Red, Black and Green.

Be brave, be loyal, be steadfast against the day when I shall return to you, better equipped than ever, to point the way to our great objective, to a free and redeemed Africa.

This week I shall give you a few thoughts on "The Battle of Wits" which is raging in the world today.

The Battle of Wits

"The world is an eternal battleground. The beings who live in it are the soldiers who are engaged in this eternal conflict. At the present time the human race is divided into many camps, each camp endeavoring to outdo the other. We who constitute one of the warring groups seem to be the least prepared for this conflict. On every hand you will see the different groups being marshalled by their most competent generals or leaders for the purpose of holding their respective places in the affairs of the world. Unfortunately, for a long while we refused to advance our cause under our own leadership. We divided ourselves and aligned ourselves with the different groups or with the different camps and have gone to war with them. Hence, in the past and even now, we find Negroes fighting under the banners of England, of France, of Italy, of Spain, of America, while the other groups or the other peoples fight under their independent banners. We refused to recognize the fact that we should fight under a banner of our own, but, as I said, aligned ourselves with all the other forces, scattering ourselves, and thereby defeating ourselves at every turn.

The Hour for Negroes to Stick Together

"The hour has come for Negroes to get together and stick together and live together, and if we must die, to die together. The most dangerous NEGROES MUST REALIZE THE GOOD SENSE OF FIGHTING UNDER THEIR OWN BANNERS, AS OTHER GROUPS AND PEOPLES DO

IF THE NEGRO DOES NOT NOW ENTER WHOLEHEARTEDLY INTO THE STRUG-GLE FOR EXISTENCE, THE NEXT GEN-ERATION WILL CURSE HIS NAME

THIS IS A PRACTICAL WORLD, AND WE MUST PREPARE PART OF THE WHEAT AND THE MEAT FOR OUR OFFSPRING

enemy of the race at this time is that Negro who is telling us that all the world is not so bad and you must exercise patience and the rest of it because the other fellow's going to be good. He is the most dangerous member of our society. The world is not going to be good until Christ comes back, and nobody knows when He is coming. He may not be here for another million years. During that time if you do not get right you are going to get hell until He comes.

Negroes Must Get a True Concept of Life

Life is serious; life is earnest. If the 400,000,000 Negroes must live, they must first get a concept and a true understanding of what life means. Life does not mean playing the fool. Life means being alert at all times, being on the qui vive and being ever ready to protect your own existence. It is for that that we of the Universal Negro Improvement Association fight at this hour.

The Fight for Mastery of the World

"If the Negroes of the world do not get ready to match their wits against the wits of the world or match something else, they are face to face with hell—the hell that we have been told about ever since we came into the world. There is going to be hell down here in this world in another few years, in the battle of existence be-

tween the different racial groups for the mastery and the possession of his world. It is for that that the great Caucasian race is lining up itself; it is for that that the yellow and darker races of the East are endeavoring to line up, and if you do not realize your position and organize and fight to extricate yourselves out of the dilemma in which you are going to be placed by these different organized groups, you may as well sing your requiem.

If Your Children Must Eat

"I am appealing to you in all parts of the world to drop your sentiment and face the world with facts, because you are living in a practical world. The fight is for your loaf of bread. It is fight and struggle to the end if you must eat, if your children must eat, if your grandchildren must eat and posterity must eat. And if you don't lay the foundation now for preserving their part of the wheat and the meat when they come they will have nothing but the chaff and the bones.

Serious Times

"We are living in serious times, Negroes. Trust no one but yourselves. Trust no one but God, that God who loves all humanity, who was as fair to us in creation as He was to the white man, the red man or any other man; that God who has not forgotten us; that God who has not, as some would believe, taken away from us anything that we should have, but that God who naturally must be displeased with us because of our own lethargy. I want to impress upon you you have a tremendous responsibility resting upon your shoulders, a responsibility for your own generation of today and a greater responsibility for your children of tomorrow. If you Negro peoples of the world do not fight in this battle of wits, if you Negro peoples of the world do not fight in every way possible, your children shall curse you and damn you for perpetuating this race, for bringing them into existence and bequeathing to them nothing else but the husks of life."

If the man evolved from the monker Marcus Garvey is our Columbus; he has come through the same stages as Columbus of the 15th century. When he appealed to the Queen of Spain, the Premier of Spain, stood along the Queen in the interview and he said. "Your Majesty, the man is crazy"; even the men on the street shook their heads and said he has got the "bugs." They have said the same thing about Marcus Garvey. After Columbus discovered this continent they were so jealous of him that on the return trip they took him back to Spain and shackled him on the ships he commanded.

OMPARATIVELY speaking the world has few thinkers. Humanity of all climes and races is led by the opinions and conclusions of a few chosen thinkers. The oppressed are always made to believe that they are inferiors by their oppressors and that Lord God made them only to be servents. Having acquired this state of mind, they become the willing tools of others their ambition dies in them, they stagnate because of their enslaved minds. Should any one among them discovers himself and by thinking independently expose the system that holds his people in thraldom, he is dubbed a radical and an agiator, a dangerous fellow to be gotten rid of, as a columyist in the New York American states:

"Socrates was condemned to death for corrupting the youth; that is, he was teaching them not brinks. To think is always dangerous. The really safe main is the man who does as other people do around him. He looks to the right and left and keeps step with the crowd. If a man is to think for himself and venture out on his own conclusions, he is pretty-sure to get into trouble,"

All men and women who have sought to enlighten the masses of their people have got into trouble, and many have had to suffer ever.

Marcus Garvey as the Great Hero of Our Race

To the Editor of The Nogro World: About 1,900 years ago Jesus came into the world to lead and direct His people. And, as we trace His life we find that some believed on Him and scoffed Him, spat on Him, and did all good sense that will give peace and manner of things to Him; but notwithstanding, as we go down the long trail of life, we see Him (Jesus) unto death even the death of the cross. So as we compare the past time with the present we see that the Hon, Marcus Garvey's fate is similar to that of

Five years ago Hon. Marcus Garvey came on the scene to be a leader and director for the four hundred million Negroes of the world. We find that this great man has suffered many the tombs, and now to Atlanta Prison, suffering for me, and for you, just as our Lord suffered for my sins, and yours. He bears the punishment of prison all for his own race, that you and I may better our conditions in life, make better men and women of our selves, establish a nation as the other folks have done to better their conditions. Still with all of his mockings and his suffering, we see him a great hero in the fight, heroism runs through his very veins, just as Jesus was a hero and bore His JENNYE JOSIAH.
