IN BUILDING EMPIRE NEGROES ARE DOING WHAT IS FEASIBLE AND POSSIBLE; RACE WILL BENEFIT FROM MISTAKES OF OTHERS

Fellow-Men of the Negro Race, Greeting:

I desire to say a few words this week on "Empires and Their Fall." Empires have risen; empires have fallen, and empires in the future will fall because of the misconduct of those who rule. We have come a long way in the history of governments; we have come a long way in the history of empires. We had Assyria, Babylon, Rome, Greece. We had the German Empire, and we are still living in the age of empires—empires that will fall.

From my observation I have come to the conclusion that empires have fallen because of those who rule—their failure to consider the feelings, the sufferings, the afflictions of those whom they rule or those whom they govern. The fall of nations and empires has always been caused by the disorganized spirit, the disorganized sentiment of those who make up the nation or empire; the one class opposing the other, fighting against the other class; the other class seeking to deprive them of the essentials of life that are necessary for the good and well-being of those who make up the nation or the empire. Hence you have had social revolutions, you have had civil strife which ultimately resulted in the downfall of the nation or the empire. History teaches us that and we are seeing it today.

Benefit From the Past

It is because we have studied history that we of the Universal Negro Improvement Association have started toward empire. In traveling toward the destiny of empire we must see to it that we do not make the mistakes others have made in the past; otherwise we shall fall even as they fell.

Some people say that Garvey and those who lead and make up the Universal Negro Improvement Association are endeavoring to do the impossible, because Africa is controlled by great forces; that Negroes will never be able to compete with the British Empire and other great European nations that have dominion over a large part of Africa.

Those who make such a statement do not take into consideration the history of the rise and fall of empires. What has happened in the past will happen again. The handwriting is now on the wall. Peoples, whether Turk, Indian, Egyptian, or Arab; Chinese, Syrian, or Bantu, are today rising in their might, the scales at last removed from their eyes, and asserting their right to live their own lives in their own land; to wipe out the plague of oppression visited

upon them for centuries, And "with what measure ye mete, it shall be measured unto you reasure."

I am not attempting to prophesy the destruction of any of the existing empires or nations, but am merely stating the overt fact that unless there comes a striking change in the mentality and attitude of the strong and powerful on the earth today—and that speedily—destruction and ruin will inevitably ensue.

When the Few Err

We have industrial monopoly; we have commercial monopoly; we have economic monopoly that places power in the hands of a select few, and on account of the selfishness of the administration by this conceited, self-centered few, the masses barely exist. It is but natural, then, that dissatisfaction follows. And from this springs a desire to correct evil, with the resultant dethronement of the oppressor, and the destruction of empire.

Empires have fallen in the past and they will fall again; the handwriting is on the wall; and we of the Universal Negro Improvement Association are organizing for the rearing of a greater African Empire of tomorrow.

But, as I have said before, in traveling to-ward the destiny of empire, let us not make the mistakes others have made in the past and others are making now. If we fail to give consideration and to extend fellowship to all who make up the African Empire, the Empire will fall. And who can tell that we are not the people to teach the world the qualities of mercy and justice, of human freedom and democracy? Who can tell but that out of the wreck of empires the Negroes of the world will build up a model empire that will teach man how to rule and govern?

The Case of the British Empire

If, for example, those who laid the foundation of British imperialism had laid it on righteousness and treated all men as they would like to be treated themselves, there would be no discord; there would be no dissatisfaction within the empire. All would work for the continuity of empire. But because of the oppression, highhanded dealing, and inhumanity that was practised, the exploited and robbed and oppressed, as we see today, are turning upon the empire to rend it. The empire's statesmen failed to consider the higher development of the people and to legislate to meet that higher development. The methods you adopt toward savages or pagans cannot be adopted toward civilized and Christian men. Continue those tactics, and they will rebel. Continue to refuse to interpret the spirit of the people in the age in which they live, and you are headed toward destruction.

We are not going to start any fight. We are just going to walk into the "New Jerusalem"—I mean the New Africa. Take Spain and France and little Morocco. Those Moors, just a handful of them, have given the Spaniards a thrashing, and are now successfully opposing the combined efforts of the two to rob them of their independence. If Abd-el-Krim and his handful of valiant tribesmen can make the Spaniards a laughing-stock, can engage, on apparently equal terms, the might of the greatest military power in the world, how long will it take the combined forces of 400,000,000 trained in military tactics to rid their soil of the invader?

Let me say to you, men and women, freedom, complete freedom for Africa is not impossible. The freedom of Africa may come at any minute. It is for us to become race conscious, to learn to co-operate, to pool our resources, to strike out, and all else will come. Pick out the best in every government, whether that government be monarchical, democratic, or soviet, and model our government in such a way that all the citizens of that government will be satisfied and in sympathy with each other. The thing you call sympathy, the thing you call human love, is the thing that binds humanity. Much of the rest is dross. When you show love and tolerance and sympathy toward your brother, he in turn loves and respects you, and will die, if need be, hand in hand with you.

The world is suffering from a lack of sympathy and human love. Embrace these attributes, Negroes, and redeem humanity.

I have the honor to be,

Your obedient servant,

MARCUS GARVEY,

Founder and President-General, Universal Negro Improvement Association.

Dear Mahatmaji.—The Swaraj party is under a deep debt of gratitude to you' for your generous support on the irreparable loss it sustained by the pre-mature death of its great leader Deshbandhu Chittaranjan Das. You have now redoubled that debt by the noble offer contained in your letter of July 19. It seems to me that the only way to repay that debt is to accept your offer in all humility and strive with your help to meet the situation created by Lord Birkenhead's speech in the spirit of the last pronouncement of Deshbandhu made at Faridpur.

Every loyal Negro should donate to the Fund to help the Greatest Negro Organization in the World.

All donations will be acknowledged in this paper, and donations of Five Dollars

The Parent Body, Universal Negro Improvement Association, now makes an appeal to its members, divisions, branches, chapters and friends to rally to its support in helping to raise Fifty Thousand Dollars by the 31st of August for liquidating urgent demands

The expense of running the Organization for the good of the race is tremen Expansion work must be done and current demands must be taken care of. The fight for Africa's redemption is a costly one, and must be borne by members of our race.

We need money now more than ever to carry on the great organization Marcus Garvey founded for the redemption and salvation of the race. Everybody should help. If you can contribute \$5.00 let us have it immediately. Those who can give us \$10, \$25 or \$50 will be gratefully shanked for their patriotism and loyalty.

Persons sending us \$25.00 or more should send us thier photographs for insertion in this paper. All donations should be sent to Chancellor, Universal Negro Improvement Association, 56 West 135th Street, New York City.

Loyal members of the Universal Negro Improvement Association should give entertainments among their friends at home to raise money for this fund. Those who desire to do so should write to Acting President-General, Universal Negro Improvement Association, for sealed authority and collecting list to avoid misunderstanding.

This is a way every member can help. Act now! Remember to send all donations to Chancellor, Universal Negro Improvement Association, 56 West 135th Street, New York City.

THE PEOPLE'S FORUM

The Lion in the Path Of Negro Progress

To the Editor of The Negro World: The potentialities of the Negro race for good or for evil are recognized by everybody except the Negro himself, of the dynamic power which it is possible for the race to exercise if it wills to do it for its own benefit socially, politically and commercially. There is reason why so many Negroes should be beggars at the gate of the white race when the remedy for the alleviation of the wrongs and grievances we suffer is in our own hands and can be applied successfully whenever we desire

But, alas! there are lions in the path: they are Negro lions. We have class lions; we have sectional lions, and we have whitie-brown lions, also. They from different parts of the world, and they have no communion with Display More Interest those from other parts of the world. We have them from Barbados. We have them from the island of Jamaica. We have them from St. Christopher and from Trinidad and other sections of the West Indies. And these have no sympathy for or interest in what con-cerns Negroes outside of their own immediate circle. They have their own to them is their own class and no other. They co-operate and work with the white man against the race, or that part of it which is trying to get together to form a lions' union for mutual that he may interpret the program and All these lions are of the same parent

U. N. J. A. Program Will Regain Negro's Self-Respect

To the Editor of The Negro World: For more than 300 years, the white race has oppressed, lynched, burned and disfranchised the Negro. They have robbed and exploited him. The Negro has grown tired of this treatment and he is determined to take a different course to the one which he has pursued during the past fifty years.

Improvement Association have started out to put over a program which will bring back to the Negro his self-respect.

The members of the Universal Negro

To the Editor of The Negro World: It is highly necessary that the young people of the race take more interest Improvement Association. This program has been given to us by our esteemed leader, the Honorable Marcus Garvey. We believe that it is the only oppression which it is undergoing daily.

We are praying that the Honorable Marcus Garvey will be spared to us s lead us on to victory. JAMES T. ARCHIBALD. Pastelillo, Cam., Cuba.

"We Must Fight

To the Editor of The Negro World:

The Negro as an oppressed race and downtrodden group should realize the fact that he will never amount to anything until he wakes up and takes his rightful place among the leading races. Today the law is an eye for an eye and a tooth for a tooth. We must fight if we would win.

If Negroes ever expect to reach the neights to which they aspire as a group, they will have to put their thoughts and words into action. We must think and act quickly. The race has a great burden to bear and much before it finds itself launched upon the path of success as a people.. It is all right for us to be good Christians, but we must not sit and wait for the Lord to do the things that we ought to be doing. The Lord will help us to accomplish the things that we want to accomplish, but we must work without ceasing ourselves.

The responsibility of the success of the U. N. I. A. lies within the membership. Let no one be deceived. Nobody can do for you the things that you must do for yourselves.

Let us be loyal to the association and do all that we can to put over the pro-gram and we will be crowned with vic-' A. AMOS, JR. tory in the end.
