MARCUS GARVEY'S ARRIVAL AT JAMAICA BREAKS WELCOME RECORDS

In Brief Message He Reasserts His Determination to Win Through--Names Hon. E. B. Knox as National Representative of the President-General of U. N. I. A. Until Next **International Convention in 1929**

The Hon. Marcus Garvey arrived at Kingston, Jamaica, British West Indies, at 5 p. m. on Saturday, December 10th, and was given a welcome reception by the populace unequalled in the island's history.

From Kingston comes the following message from Mr. Garvey, in which he asks for the Hon. F. B. Knox the support and co-operation of the membership throughout the United States:

Fellow-Men of the Negro Race, Greetings:

I feel happy that I am able to serve you in the cause of African Redemption. The "rush act" of getting me out of the United States is but one of those ordinary incidents in the rise of movements that carry a history behind.

I realize the fear and weakness of my enemies in trying to deprive me of personal appearance after my liberation. They were afraid of my speaking to the real American conscience, but in closing the door in America they have opened the flood gates of the world. I shall present your cause to the bar of international justice and I feel sure neither you nor I shall be ashamed of the result.

Believe that I shall devote every minute of my time, from now to the grave, to the great cause and your universal freedom. It isn't America that has railroaded me, but the few unscrupulous politicians and industrial imperialists who think they can fool all of the people all of the time. I love the people of America even as I love all humanity. I shall help to save America and the world by a peaceful solution of the race problem, but anyhow, Africa must be redeemed for the Negro.

In the affairs of the Association in America, I ask that you support the Hon. E. B. Knox as the national representative of the president-general until the next great international convention, at which you yourselves shall determine on the new leaders.

I have also named a number of men at different points to assist Mr. Knox. I shall publish their names for your direction on the 1st of January. 1928. In the meantime, rally to Mr. Knox and help him to put over the school and the Negro World. You shall hear from me as usual. Read the Negro World and be informed. I am now in haste, but shall write at length in my next communication.

With best wishes, I am,

Your obedient servant,

Mareufaney President-General, Universal Negro Improvement Association.

Reached a Difficult Stage
One of the latest contributions to the discussions on this subject that have come under our notice is an article by Lord Meston in the London Sunday Times, which deals with the matter from a different angle. The writer believes that the white man in Africa has reached the second and the most difficult stage in his relations with the backward races. In his yiew the Hellitisher chiead is the first to a fair hearing and to a full measure of justice that is now practically defield to the natives when they have occasion to appeal from what they conceive to be injustice at the Crown as represented by the Colonial Minister. A few years ago a native deputation from South Africa with a real grievance was turned away for difficult stage in his relations with the backward races. In his view the Britisher shined in the earlier stage when order had to be restored out of human chaog or a natjon'in a bad way had to be regenerated. But in the second stage, after order had been restored and such influences as commercial exploitation had replaced paternal rule, the native is forced to make "the acquaintance of a different type of denial of Justice. This policy of trustiacquaintance of a different type of denial of justice. This policy of trust-ing the man on the soot and judging want and distress, it is but natural the disruption of empires has often that resentment and racial bitterness should be the result. The Anglo-Saxon Prejudice
British Empire has grown enormously since the days of Queen Victoria; but if you inquire from the average intelligent African his candid views as to his position in the empire his answer will be that he does not find it to be as comfortable a home as it was to him in the Victorian era. There has been almost a complete change in the character of colonial administration since the period alluded to; for the materialistic conception, the idea of developing the dependencies inhabited by the darker races for the purpose of bringing wealth to the British people and of relieving unemployment in England now dominates colonial policy to such a degree as to obscure the vision of administrators and to make them overlook the fact that the happiness

Well, "the Tiger" is loose again. And the Tiger is not only loose, but he is full of fight. It is a good interpretation of Jungle law that the tiger fights best when the hunter invades his lair to steal his whelps. It is also true that the little tigers can put up a good fight when the hunter is after old man tiger.

Perhaps the hope has been born in certain breasts that, with the tiger far from his accustomed lair, the whelps can be captured and subdued with ease. Let us disap them. Perhaps the idea is abroad that with the shepherd away the sheep can be effectively scattered. But sometimes when the shepherd is not around the shepherd-boys make a good job of guarding the sheep. Come on, you shepherdboys, and "Let us disappoint them."

It does not matter what your personal opinion is on the subject of Africa for the Africans. The present situation is too big for you to look at it from a personal angle. The idea is that for us to allow so important an institution in Negro life as is THE NEGRO WORLD to die just at the time and in the manner that the Imperialists hope to have it die, would be a lasting disgrace to the entire Negro race. This paper is all Negro. It was started by Negroes, is still run by Negroes, and, if it be the will of Negroes, it will continue to function as such. It is a terrible weapon in the hands of the race, and our oppressors—realizing that, would like to see it die. LET US DISAPPOINT THEM.

most guilty should have frantically protested against making public the findings of the commission, so that they might be trimmed down to protect their good name and reputation. But truth has a way all its own of finding a way to make itself heard.

The large number of white persons who spend much time thanking God that they are better than any other people are much troubled in mind to find that they are "also human," and "have feet of earth, dirty." Good people everywhere, because of the report on the white slave traffic, will redouble their vigilance in preserving the family life and the morals of womanhood and childhood.

All hail, Brave Heart! No foe can dim your light.

Renew your strength! Take courage and go on!

Look up, Brave Heart! You struggle not alone. Nay, you have soldiers whom you've never known.

Lead on, Brave Heart! Your soldiers, gallant, too,

Since you are sight-you're lated to win through.

And when by Father Time you are laid low, The nations of the earth will then bestow All honors and the glories that are yours-

You shall live on and be our chief hero.
