Garvey Exposes Deceits of White Press Which Seeks to Chloroform the Masses So as to Fatten the Purses of the Few

Fellowmen of the Negro Race, Greeting:

This week I desire to say a few words about the white press and their propaganda throughout the world to influence and rule the opinion and sentiment of the weaker peoples of the world, as well as to dominate the sentiment of the masses of their own race for the purpose of exploiting them to their own peculiar capitalistic interest.

Ridiculed Negro Nationalism

Everybody knows that for over fourteen years the white press of America and Europe have ridiculed the idea of Negro Nationalism. They have, in season and out of season, tried to misrepresent all those who have stepped forward uncompromisingly to advocate this great cause. Personally, I have been the target of their abuse for the entire period of time mentioned. It has reached a point now where it becomes my duty to expose the method of this venal white press.

White Press Not Honorable

First of all, we must know that the press of today is not the honorable fourth estate of the past centuries. It is now the property of the white unscrupulous capitalists and business men, who use it for the purpose of shaping public sentiment in keeping with their motive of exploitation. If you will searchingly probe the makeup of the directorate of all the white newspapers in New York and all large American cities and the big cities of England, you will find that they are made up of men who have vast investments in rubber, oil, diamonds, coal and other mineral industries and commercial enterprises. These directors, who own these large papers, employ a large army of dependent intellectuals whom we call journalists, and instruct them in the kind of propaganda they must write in the daily and weekly newspapers to influence the public mind and even to influence the government, hence, when you find any great Oil Trust or Rubber Corporation desiring to put over any big deal in any part of the world, the newspapers that they own start out in a wide-flung campaign to educate the public mind and even the government as to the feasibility of supporting the proposition. The result is generally that the people are led to believe that whatsoever is undertaken by these big trusts is for the good of the country; the government, therefore, gives its support and even though the proposition leads to war, the nation pays the bill and the ultimate result is that the heartless capitalists reap the profit. Therefore, any humanitarian movement that seeks or attempts any plan of idealism to free the oppressed people or their country is opposed by these capitalists through the rebuff of these paid journalists who are always directed to hold up such movements to public ridicule and at times to suggest to the government that it is not to the good of the commonweal to support such organization of movement.

Why Papers Oppose

When you see papers like the New York World, New

York Times, New York Tribune and the large London dailies criticize me or the Universal Negro Improvement Association, you will realize that it is not because there is anything worthy of criticism in our movement or our actions, but it is because what we are striving for is tending toward the detriment of the scheme of these capitalists.

No Morality in White Press

As a proof that there is no morality in the white press of today and that Negroes who are striving toward freedom must pay no attention to what they write, I will cite you a case of real happening in the United States of America.

One Man Owns Chain of Newspapers

William Randolph Hearst, who owns a large line of newspapers from New York to Los Angeles, and from New Orleans to New York, also has large oil interests in Mexico. Hearst has always been desirous of securing better protection for his investments in Mexico than offered him by the Mexican Government. He felt that so long as the Mexicans maintained a government of their own and directed the policy of all business in Mexico, he would not be able to reap enough profit out of his oil investments, hence, he thought it would be a better thing for the American Government to annex Mexico as a state such as Texas was annexed some years ago, and in that way the American capitalist would be able to direct his interests in Mexico and by the force of his newspapers direct the policy under which his business would be operated. To carry out his plan, he secured "confidence men" to forge certain Mexican state documents as to suggest that the Mexicans were contemplating war against the United States of America. These forged documents were presented to the Scretary of State of the United States upon which he and the Cabinet were to act in preparation for war against Mexico. The forged documents created such a consternation that the matter had to be brought to the attention of the Senate. Then certain honorable members of the Senate desired a probing into the authenticity of the documents. An investigation was instituted, the result of which proved that the documents submitted by Hearst were all forgery and the

entire thing was a fake and that Hearst had paid large sums of money to secure the documents.

War With Mexico Averted

As you see, if it had not been for the Senatorial probing, America might have gone into war with Mexico and millions of lives would have been lost, millions of dollars would have been spent by the American Government as well as the Mexican Government, and the result of the American conquest would have been to the profit of Hearst and the Oil Syndicates he represents. Yet the American press was used to bring about that state of affairs; the press that we think ought to be honorable, but which in fact, as stated above, is in the hands of unscrupulous capitalists who will not stop at anything, death itself, to carry out their object by wickedly influencing the public mind. It is this kind of press in America and Europe that is fighting the U. N. I. A. in the urge of "Africa for the Africans, at home and abroad."

Holding Up Leaders to Ridicule

The capitalists who control the press in America and in Europe and who have been making their millions in sterling and dollars out of the unfortunate blacks of America, the West Indies and Africa, naturally, through their hired journalists, hold up all real leaders of Negro freedom to ridicule.

Disregard White Press

It is for us, the Negro people of the world, to know these facts so that we will disregard anything appearing in the white press critical toward the emancipation of the Negro the world over and the freedom of our country, Africa.

The Black Press

The time has also come for the Negro to finance and control daily and weekly papers of their own in every section of the world, where it is necessary, to educate the people's minds toward a square deal and justice for the Negro. The white man has spent millions to build such institutions as the press to protect his interest. Asiatics have learned the value of the press, so in Japan and China we have a powerful press directed toward the interest of the yellow people.

Africa Needs Publicity

Africa cannot develop, Africa cannot be freed without daily, weekly and monthly newspapers by which we can stir public opinion to the righteous cause we desire to present to them.

I trust this explanation of mine will be well considered and that we will now rally to the point where we shall not allow ourselves to be any longer deceived by the white press of the world.

With very best wishes, I have the honor to be Your Obedient Servant,

Likes Negro World Stand On Prohibition and Smith

To the Editor of The Negro World: Dear Sir:-I want to know the nam of the man who wrote the editorial in the last issue of The Negro World, subject "Prohibition." I think that it the best of its kind that it has been my picasure to read. The Negro World have read that has come out for Smith. I think that every Negro newspaper in think the governor will be snother Abe Lincoln, I have always voted a Republican ticket, but this country is in such a mess with this prohibition business until it takes only a man like Al Smith to straighten things out. I have just read an article in the Atlanta Independent. Subject, "The Republican Party Is the Ship; All Else Is the Sea." This was all right 20 years ago, but things have changed now. This is a day of airplanes and radios. The Re-publican party defeated the anti-lynching bill five years, and will defeat it again when it comes up, so it can't be any worse; so it behooves us to look at the man, and not the party. There is one thing we know about Smith-he is a man for the common people. With this I remain yours for Al Smith, S. R. HALL. 5320 Forbes Street, Pittsburgh, Pa.

A Student Makes a Plea For Liberty University

To the Editor of The Negro World:
As a student of Liberty University, am appealing to the many black mothers and fathers to send their children there. By sending your children to Liberty University you will be supporting the school and giving your children the kind of education that every black man and woman needs.

Our school has a wonderful location, and is overlooking the beautiful and bistoria James River. I myself expect to be among the student body next term, as I was last session, and hope there will be many more, so that Lib-erty University may have something worth while to show in the convention

of 1929. The time has come for the Negro to cast behind him the hero worship and adoration of other races and start out immediately to emulate and revere beroes of his own. We must canonize our own saints and elevate to position of fame and honor black men and women who have made their distinct contribution to our rucial history, This can easily be done by sending your boys and girls to the Universal Lib-erty University at Claremont, Va. Negro in Self-Defense natives to take the place of the men Kills Diplomat's Valet

GENEVA, July 8.—The trial of a Negro, John Coates, employed by Hun-garian Minister Hevesy, delegate to Representatives of the Witwatersrand Tallors' Association went round to investigate the matter, but came away the League of Nations, for having satisfied that the firm's action was jus-tified. It was decided not to call a killed with a revolver last March tha Minister's valet over a love intrigue strike of European employes in clothing with a girl employed in the factories, and Europeans employed by house, was held today in the Criminal the firm refused to "come out" in sym-Court

The case lasted the whole day. The result is that today the native Coates was sentenced to one year's trade union called a strike of clothing workers. Their attempts to pull out imprisonment. It was shown that he acted in self-defense under great provocation. Coates was imprisoned workers met with varying success. Factories have not been greatly incomfor two months since the crime, and
