Honest and Sincere Men and Women Needed For Unselfish Service to the Cause Afric

Fellowmen of the Negro Race, Greeting:

The time is drawing near when we shall re-engage ourselves in the determined effort to put over and make a reality the program of the Universal Negro Improvement Association. For more than ten years we have been occupied with the task of preparation; today we are fully awakened and alive to our responsibility in executing the things that we have decided upon as the object of our desire.

Strong Minds, Great Hearts, Wanted

My European tour is nearing a close, and I am returning to you at your headquarters to execute the plans that must follow our preparatory activities. We need men and women to carry out all the plans before us. This is the time when real men and women must enlist under the banner of the Universal Negro Improvement Association. I am praying with J. G. Holland that

"God give us men. The time demands Strong minds, great hearts, true faith and willing hands; Men whom the lust of office does not kill; Men whom the spoils of office cannot buy; Men who possess opinions and a will; Men who have honor, men who will not lie; Men who can stand before a demagogue And damn his treacherous flatteries without winking; Tall men, sun-crowned, who live above the fog In public duty and in private thinking! For while the rabble with their thumb-worn creeds, Their large professions and their little deeds Mingle in selfish strife: lo! Freedom weeps! Wrong rules the land, and waiting Justice sleeps!"

Such are the men and women that we desire for service in the Universal Negro Improvement Association at this time; men and women upon whom we can depend for real service, service for the Cause Afric. If you feel that you can serve in the way that is laid out, then we expect you to rally and answer to the call. We want you everywhere; we want you in America, the West Indies, South and Central America, Europe, Canada and in Africa, because now more than ever the Universal Negro Improvement Association is determined to execute its plans, and to carry through very item of its program for Africa's freedom and the emancipation of our scattered race. Hon. Marcus Garvey Says After Ten Years of Preparation U. N. I. A. Is About to Proceed to the Execution of Its Plans

MEN AND WOMEN WHO WILL NOT FALTER NEEDED FOR MIGHTY TASK OF NATION-BUILDING

Negroes Were Not Made to Be Serfs—The Race Must Now Rise to the Occasion

erous men, dishonest men, men of small hearts. We want none of them for the present nor for the future. We want only those on whom we can depend, those who will be our pilots through the terrible storm of life: men who will not falter; men who will not be afraid to die. Africa's cause must be carried to the four corners of the world. We want men who realize that the black race has a cause which must be presented to the world.

Everything Can Be Accomplished

I live in great hopes of seeing nearly everything we desire accomplished within a reasonable time if we will only work together. If the men of the black race in Africa, the West Indies, South and Central America and the United States of America would work together on this great program of ours there is no reason why we cannot present to the world not only a Nation, but a race self-respecting and able. We are going to work for this. We have laid the foundation for ten years to build upon, and surely we are now going to erect a structure that shall be lasting. It should be a pleasure for everyone of us to do our duty to this cause. It has been a pleasure for other men and women to do great things in helping to build great nations of their own. Let me urge you, therefore, to the rededication of vourselves to unselfish service; that service which will ultimately add to the lustre, not only of your name, but also to

your race's, that service that never dies, but lives in marble and bronze.

Great Monuments to the Illustrious Dead

As we passed through Europe, we saw the monuments of marble and bronze erected to great men and women who have served and fallen in the mighty crusade of nationbuilding. We can duplicate these monuments by our service to our own race and to our country. The Negro has no Pantheon through which he can show the stranger and the visitor the remains of the honored dead. The French can do it; the Germans can do it, and the Italians can do it. By a new courage and determination we shall do it in the future. It is left to you, black men. In any part of the world where you find yourself you can start to render service. There is nothing that man has done that you cannot do. Let lives of other men remind you that you can make your lives sublime so that in dying you may leave your footprints on the sands of time. Just as Napoleon has left his footprints for the French, Bismarck for the Germans, Gladstone for the English, and Lincoln and Washington for the Americans, you black men and women can also leave your footprints for the Africans.

Black Men That Rise to Occasion

Black men, you must rise to the occasion. God has given you to the world for something, not only to be hewers of wood and drawers of water; not only to be serfs and slaves, but as men, and not common men. Some of the greatest heroes of the past are men who have risen from the lowest rung of the ladder; men who came out of lowly homes, but whose ambitions were great and who had the courage to go forward to conquer. If those men have done such great things for their race and country may I not en-

Be True and Sincere

At this time we call upon you who are true and sincere. We have had a terrible experience in the past with treachcourage you in that direction? I have hopes that you can do what others have done, therefore, I encourage you to go forward in the name of the Universal Negro Improvement Association and conquer.

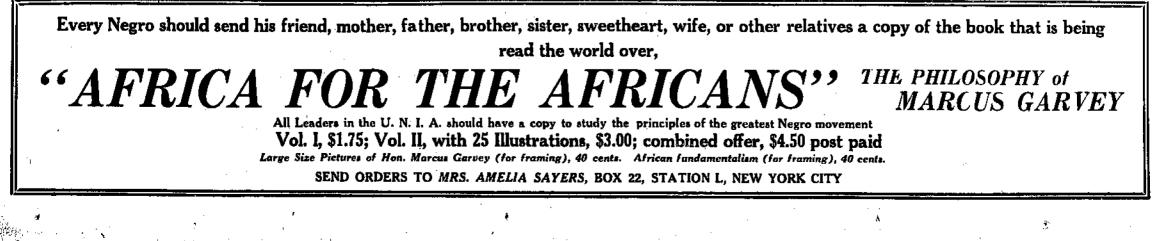

With very best wishes, I have the honor to be

White Races Worry As Negroes Awaken

To the Editor of The Negro World: It is the duty of every disciple of the Honorable Marcus Garvey to engage in conversation with a white man whenever the occasion arises and get his views of the future of Africa and who must finally possess it.

Citizens and subjects of the colonial governments in Africa are hold enough to tell you that Africa is a white man's country. Through what identity, God only knows. He is bound to the Africans by no racial tie. His culture, color and customs are different. Then what?

One who is fully aware of the white man's game knows that it is not the inhabitants of the land he loves so well, but Africa has become the Treasure House" of the world and the white man is looking to Africa for treasure, while the Negroes are looking to the skies for Jesus. And the
