# MARCUS GARVEY CORRECTS FALSE PRESS REPORT OF WHAT TOOK PLACE AT FAUBOURG CLUB, PARIS

Fellowmen of the Negro Race, Greetings:

More and more the white man supplies evidence of his lying, trickery and propaganda calculated to deceive the unsuspicious and innocent whom he generally aims at bringing under his influence to carry out his own designs. The latest in this direction is what purports to be a cabled report of the meeting I addressed at the Club du Faubourg in Paris on Saturday afternoon, the 6th of October, which was published in the New York World on the morning of the 7th. Nothing more misleading and misrepresentative has ever been published by a standard newspaper than that report.

#### A False Report

It was stated in the cable that the "Dream of Marcus Garvey, 'Moses of the Black race,' who has for years endeavored to lead the Negroes back to Africa, collapsed finally today. Pleading passionately at the Club du Faubourg for the founding of an African empire, he faced a large number of French-Negro intellectuals, who frequently interrupted him by pointed questions." Nothing of the kind ever happened. There were about 1,500 white people, Frenchmen and women, and scattered Americans, as well as about 70 Negroes in the club at the meeting. My speech was never interrupted by any questions. Questions were privileged after I closed my speech, as is the policy of the club. In the midst of my speech a vote was taken among all those present as touching their opinion on the creating of an African nation for the Negro, and everyone voted approval. How any newspaper correspondent could interpret this vote to be a failure in the pleading for the creating of an African nationality for Negroes is impossible for me to understand. It was also stated in the cable that I was advertised in Paris as His Highness the Potentate of the Universal Negro Improvement Association. Everybody knows that I am not the potentate of the organization, but its President-General. There was no such advertisement in Paris. The entire press report was colored for the purpose of deceiving the American public and for maintaining the pretense that Negroes are not interested in their own future in working for the creation of an African nation. This concocted and colored

report further convinces me that the Negro can place no confidence or reliance in anyone to represent him except himself.

#### Must Fight Own Battles

The Negro must now fully realize that he must fight his own battles. He must create his own media of stirring world sentiment toward the righteousness of his own cause. The Negro can no longer depend upon the support of alien agencies, because such agencies are only used to defeat him in anything progressive or hopeful. As a proof that the Negro is becoming critical of the white man's dirty propaganda, I desire to state that a similar report was published in Miami, Florida, on the 7th of October, and a Negro from that place cut the clipping out of the paper and mailed it to me in London, and commented on it by stating that he knew it was a concocted lie of the white man to have it appear that my meeting in Paris was a failure. It is good when we have started to think this way. I was asked by this man to make the matter clear through publication in the Negro World. I hasten to do so, especially after reading the same report in the New York World of the 7th October, because such evidence is helpful to prove to the Negro that things are not what they seem.

#### Plea for Justice and Success

I want to assure the Negroes of the world that our plea for justice and for African nationalism met with the heartiest support in France. I have left behind hundreds of ardent Frenchmen and women friends who are ready and willing to help the cause we represent, and when the time comes for us to request a definite settlement of the Negro problem I feel sure that France will not be wanting in sympathy.

#### Our Own Daily Paper

It is good that we are going to have our own daily paper, the "Black Man," along with the "Negro World," to help create that world sentiment among Negroes so as to free ourselves entirely from looking to white newspapers or periodicals for news of any kind. The time has come when we must support our own Negro papers so that they can supply us with the best of news. That is what we are endeavoring to do. We shall have corresondents all over the world to supply us with minute news of everything happening to affect the Negro. We are, therefore, asking that you continue to give your support in that direction.

#### Work! Work!! Work!!!

I must reiterate that my trip to Europe in the interests of the Universal Negro Improvemnt Association and the Negro race has been a tremendous success, and I am buoyed up with a new inspiration to work, work, work for the accomplishments of our aims. The way is clear; it is only left to every unit of the race to make everything

#### A New Epoch

The Universal Negro Improvement Association has now entered upon its second epoch of usefulness. This epoch shall leave on the pages of history an imperishable account of human progress never to be erased or effaced, a credit to the black man who has started to think. Let me encourage you everywhere to redouble your effort in supporting the program we have before us, for the future means much.

With very best wishes, I have the honor to be,

Your obedient servant,

Marculaney President-General,

Universal Negro Improvement Association.

Everything points to the fact that the Democratic ticket will be more largely supported by the Negroes of New York City in 1928 than ever before in the history. He had not a comparable of Presidential elections. And this is as it should be, since at the head of that ticket stands the name of a man which is one to conjure with.

Governor Alfred E. Smith, the people's man, stands for all that is sanets and soundest in American political life today. Of this we are assured.

Some people take the position that because Governor Smith has not mentioned the Negroe group by name and made a definite pledge to it to put an end, as far as he is able, if elected President, to the many vile abuses which if now suffers, that he is not cnittled to the votes of Negroes. These people reason in the Same manner about Hoover, and they would have the Negroe interest about the Negroe in the same and the name of a man with the same and the name and the name of a man which is one to conjure with.

These people, we carnestly submit, are giving the Negro unwholesome advice. This is not the time for the Negro to be throwing away his ballot, his most precious possession today. tude in the White House should not be alarmed at the failure of Al Smith to guillotine his chances.

On the other hand, may we point out that it should be enough, in this campaign, that Smith has not hesitated in making it known far and wide that he stands vehemently opposed to bigotry and intolerance in any form and that he has expressed himself as very mindful of that passage in the Constitution of the United States which asserts recognition of the fact that all men were created equal. All that American regroes ask, and that American regroes should ask from those in authority is that they be treated as American citizens.

We again submit that it is of more than passing significance that Al Smith, while Hoover was promising the ignorant and prejudiced that he would not appoint Negroes.

Campaign iterature, seeches, intended and properties to Federal office, was paying tribute in a log cabin to the memory of Abraham Lincoln, who signed the Emancipation Declaration giving freedom from slave chains to Negroes.

Governor Smith says victory is in the air. We sincerely hope that victory will crown his efforts. For, if he falls, we see in ogain, not by a single step, for many a year in the people, seeks the suffrages of the nation. Every Negro is in spite of injustice and prejudice in this country.

#### Negroes Must Think Seriously

To the Editor of The Negro World: There was once a time when the white world paid no attention to what the Negro said or did and whenever attempts were made to make good they were kughed at, mocked and ridiculed. But as you have noticed,

there is a change.

Looking carefully from day to day you will see that the white man is assuming a new attitude. He is think-ing seriously of what the Negroes are doing and what they will do next. As you observed in the Negro World datad September 22, a map of Africa was believe the Negro shown where every fach of the conthere he amy psace? New Nogroes wake up and help our Honorable leader, Marcus Garvey, in his ght against the mighty.
You Negroes with the broad shoul-

ders and high chest, dodging around there, you who are not alraid of prison or death; with the ability to be a leader, we want you. Don't you hear the bugle call? Come out, fall in line. Africa expects every man to do his duty. The Honoroble Marcus Garvey has toured all Europe and he has left a wonderful impression on their kings and presidents. We hope the time is not far distant when Africa shall be eemed and the Honorable Marcus Garvey shall see the fruit of his labor and be abundantly satisfied.

BERNARD PRASER.

#### U. N. I. A. Developing Rapidly in Georgia

To the Editor of The Negro World: Since the visit of the Hon. Marcus Nations, the Negro is in a state of this feechings we shall be more than unrest in Georgia. He knows so little conquerurs. It is quite reasonable and of the association, and prior to Gar. just that a race of four hundred milrey's activities in Europe did not care | Iloh men and women should have a to know either. But now he is ready country of their nwn, and it is for this to be informed whout the program.

The Negro wants to be like a white man, not in color, custom or habit, but in liberty and freedom. Wherto continue to cry, "Africa for the ever a white man travels or visits he is regarded as a free and respected person. Why? Because he is not only nationally free but universally free. Then we want to be the same, and we are going to be the same. God is the same God who made us that glorious promise that Ethiopia shall soon stratch forth her hands and princes shall come out of Egypt. And he is same God; for God is God and always will be God.

If a Negro is only free in Americ

and when he gets to Europe, Asia, Africa. West Indies, South and Central America, or other parts of the world is made a serf, slave or peon, such
