TEN CENTS ELSEWHERE IN THE U. 8. A

# Economic Stability A Prime Requisite, Marcus Garvey Reminds The Negro Race

Fellowmen of the Negro Race, Greeting:

I am still on my way to our Headquarters, where I hope, in a short while, to prepare and publish complete, our forthcoming International Convention's program. In the meanwhile, I desire to bestir you to the serious appreciation of the new effort we are about to make to create and insure a future necessary to the making of our race.

# **Vision of Wonderful Future**

From the vision of things I can foresee nothing else but a wonderful future made safe by the unanimous co-operation of the Negro peoples of the world. It is true that we have had, as a race, an unhappy past, and we are undergoing a difficult present, but from survey of world affairs, and from an appreciation of the economic value of the Negro to himself, I can see nothing else, through co-operation, but the development of a new race, stable in its economics, its politics and its general outlook.

# **Relief to Come**

The program we have for our Convention, and which is to be executed, will, I feel sure, bring relief to every section of our race. It is a program that we cannot go to sleep on, but to which we must give our undivided and active

tion of the country is enough to open the eyes of the thoughtful-Negro student and statesman to the movement toward replacing the Negro in the South as a labor factor. With the South becoming more industrialized, as it will in the next ten years, so much so will new importation<sup>7</sup> of European labor be shipped to the South for the elimination of Negroes. This is the scheme not only of the able white statesmen, but also of the Federation of Labor. Seeing and knowing as much as I do, I cannot but project this warning to the American Negro to be very, very careful so that the forces operating against him may not succeed in eliminating him as desired.

# **Election of Negro Congressman**

The election of a Negro Congressman in Chicago will also create new economic problems in Chicago where the same forces of bigotry and race prejudice will seek to undermine the economic prosperity of the Negro in Chicago through his employment in that community so as to break up his political strength and not allow him to duplicate what he has so splendidly done in the last election. against him, whenever he makes progress in any one line, will not be able to destroy him. This is the great handicap that faces the American Negro, and it is for the overcoming of this handicap that the Universal Negro Improvement Association is working and we feel sure will succeed.

# Our Convention Program

With our program for the convention, which will be rigidly prosecuted for the next ten years, we hope to bring about not only redemption for Africa, but we hope to make it safe for the Negro to live not only in America but in every part of the world where he happens to be. We can promise every branch of our race that we have left no stone unturned to find out what we can possibly do to bring relief. I think we have before us now the solvent for all our ills; it will only need our careful attention and support which I feel sure that everyone will give.

# Be Not Gloomy

Let us not be any more gloomy nor doubtful in our outlook, but let us look forward to a brighter and greater future. It is to our making, and we are going to make it with God's help and with our own activity.

# Men and Women Wanted to Serve

In the effort to remake things to our own desire, we are still searching for conscientious.

support.

# Warning to American Negroes

I may state a few words of warning to the Negroes of America by stating that the next ten years will prove the most trying in their economic life. Judging by the result of the last Presidential election, where the forces of bigotry and race prejudice have triumphed over constitutional rights, human liberty and justice, I can conclude in no other respect than to prophesy that the same forces will now get to work, as they have always been doing, to economically starve the Negro so that he may become eliminated from the body politic. That is why I made a desperate fight for and suggested to the American Negro to support Al Smith, because I knew full well that sinister influences and agencies were at work to eliminate the Negro economically from American life. The very fact that the South is becoming an industrialized sec-

# **Our People Do Not Think**

Unfortunately, our people do not think ahead of time. The white man thinks in advance and that is why he has ever had the advantage of us. Whatsoever our gains may be politically or in any particular branch of human activity we must always measure them by their dependency upon other credentials, such as political power being essentially dependent upon economical stability and prosperity. The Negro in America will hold nothing until he is economically stable. He must be his own employer so that the influences of prejudice operating intelligent and loyal men and women to serve. We want you from every part of the world, because there is work for each and everyone to do, so the invitation is repeated to all those who desire to serve the U. N. 1–A., and the Negro race, to write to me to 76 King street, Kingston, Jamaica, B. W. I. Tell me just what you are able to do and how much you are able to do for the cause, Afric, and for an emancipated race.

Trusting that each and everyone will do his and her part, with very best wishes, I have the honor to be,

Your obedient servant,

Marenfarrer

President-General, Universal Negro Improvement Association.

# SPECIAL NOTICE

All of the Divisions in the States of Mississippi, Texas, Alabama, and Louisiana are hereby requested to send representatives to a Special Conference to be held in the City of New Orleans, La., at Liberty Hall, 2919 South Rampart Street, December 31, 1928, and January 1, 1929. This Conference is called for the purpose of supplying the officers of these Divisions with new plans and policies of the Parent Body as discussed by the recent Conference of Commissioners at Toronto, Canada, presided over by the Hon. Marcus Garvev.

All Divisions in these States are also cordially invited to take part in the Annual Parade of the New Orleans Division on January 1, 1929, Emancipation Day.
