Self-Reliance Will Pull The Race Through; Dependence On Others Spells Doom

Fellowmen of the Negro Race, Greeting:

In another short while we shall be actively engaged throughout the world in preparing ourselves for our mighty Convention. The urge is not only to prepare ourselves for the Convention, but to have ourselves in readiness to execute the program that is about to be advanced by the Convention.

A Mighty Program

Never in the history of the world has there been any such program as we are about to give out and which is to engage our attention for the next ten years. It simply means that every Negro in the world will have to do his part. There will be work for everyone to do. Not a unit will be left untouched, because we realize that the time has come for our united action everywhere.

New Regime of Usefulness

The insincerity, lack of confidence and general inertia of the past are to be obliterated, and a new regime of usefulness ushered in. There is no reason for any Negro to talk about "this can't be done" and "that can't be done." Under the new order of things we must do if we are to save ourselves and redeem the great land of our fathers. There is no impossibility about this; it must be done, and we are going to do it.

Depend on Ourselves

472

•

We have ceased depending upon others to show us the way. We must now find the way for ourselves. We have forgotten the old order of depending upon others as friends to make our pathway safe. More and more as we go through the world, we find that the Negro's future, as a man, depends absolutely upon his own effort. It is childish, yea, foolish, for anyone to think that any other race in the world is going to help the Negro as he, the Negro, should help himself. We have depended upon that kind of friendship to lead us nowhere but to our present state of unpreparedness. We may continue to appreciate our friends and

thank those who may be sincere, but surely we are going to depend upon our own service to lift us from the economic and political poverty in which we now find ourselves.

Big Program for Ten Years

The program of the Universal Negro Improvement Association shall be pushed forward for the net ten years with greater vigor than any other organization's program. We have to do this because we realize that the Negro is at the turning point either for his own salvation or real extermination.

Act for Ourselves

We must in everything act for ourselves, and so I am appealing again to the heart and soul of every black man and woman the world over to rally as never before to the program of the Universal Negro Improvement Association.

Stalwarts Wanted

We need stalwart men and women everywhere; men and women who will dedicate themselves unselfishly to that service that is to bring about the glorification of our cause. Such service that the martyrs and heroes have given to the great movements that have blessed humanity through the ages. It is not necessary for the Negro to look in any other direction for service and recognition other than through the program of the Universal Negro Improvement Association. The opportunity is ours. We are living in a blessed age when the privilege is ours to serve. Therefore, we should serve.

I prefer to live at this time than at any other,

because it is an honor for me to do my bit for my race. As I feel, so I imagine millions of us all over the world feel. It is just such a feeling that has made the other races and nations all over the world the power they are today. We must go forward and make for ourselves a future worthy of our generation.

Future to Be Prosperous

Be assured, as I have stated, that even in the midst of hardships economically and politically, we are now facing the period of our greatest prosperity, depending, however, upon our willingness to co-operate for the common good. It is not necessary for the Negro to be dependent upon anyone else for help. As-a power the Negro is potentially great, and if he will only carry out the program of the organization, there is no reason why he cannot be self-reliant and self-dependent. Hence, we feel that the Negroes of America, the West Indies, Central and South America, Canada, Europe and Africa will no longer continue to practice that narrowness of spirit and parochial prejudice, but will realize that it is now time for every Negro all over the world to link up so that economically, politically, socially, educationally and physically we may meet the world as a united people.

Plain Talk

My next article to you will be a plain talk on the matter of what we can do and how we are to go about doing it. Those that each and every member will secure a copy of the next issue of the Negro World.

With very best wishes, I have the honor to be Your Obedient Servant,
