## "Black Shirts" Rebuffed in Georgia Enter Florida; Mob Flogs Five Bellboys Off Jobs

## Youths Abducted in Cars, Clothing Removed, Slashed Until Unconscious

JACKSONVILLE, Fla. "American Fascisti Order of Black Shirts" which has been opposed because of its prejudicial principle got its first foothold in the United States, when a charter was granted to the organization in Orlando, Fla. The body was incorporated under the laws of the state. Four white men of Atlanta, where efforts were made to establish the organization, were named as officials.

The charter application sets out that the order is for the purpose of promoting white supremacy, obedi-ence to law and order, engendering good fellowship and upholding the Constitution.

The movement has spread through ties in Georgia, but has been unsuccessful in obtaining a charter in that state. Plans are under way to extend it through all the principal cities of Florida.

The Primary Essentials in the Life of a People Have Been Denied the Black Race Almost Universally - Let Us Hold Fast and Achieve What We Aim At

FELLOWMEN OF THE NEGRO RACE, Greetings

Some people have consistently asked why it is we insist on proclaiming for the rights of the Negro, as if he were not sharing enough of what he is entitled to. The suggestion really means that we have made too much noise about the injustices done to the black race.

We are unable to satisfy our cur-ious and peculiar friends in this, because we are determined not to yield one lota of our race's rights, simply because others may be displeased about the way we are agitating about them. No one with any amount of feeling, justice, or sympathy can state that the Negro anywhere is getting all that he is entitled to. Comparing his rights with those of other men, the black man has been viciously and outrageously attacked at nearly every outpost of our civilization. In fact he has been relegated to the lowest rung of our social economical political and religious lad-5 Stone

It seems that everybody makes him a stepping stone towards their objects in view. He has been so crushed and humiliated that those of us with ambition naturally must feel indignant. While we are not entirely expressing our indignation, we are vehemently proclaiming to the world that we are determined to seek our rights in common with other men.

Severity of Language It was William Lloyd Garrison in fighting for a similar cause, who said:

"I am aware that many object to the severity of my language: But is there not cause for severity? I will be as harsh as Truth, and as uncompromising as Justice.
